What can I do as a teacher to eliminate gaps from absenteeism?

- Work with your team to share ideas and the workload.
- Stay on track with the NHA curriculum.
- Use your “teacher sense”, team and dean to figure out what to spend more time on and what to abbreviate.
- Ensure there is accountability and follow through.

- Track data to know what you need to work on during preteach/pause/review/flex days to make the most of your time.
- Utilize workshop time to help fill gaps when things are missed and to extend learning for advanced students.
- Have open communication with students and families.
