

Hello,

Here are the instructions I promised to forward for installing avast! and totally removing your current antivirus program.

**Remember to save the programs you are downloading to a folder where you can find these files or, to your Desktop.**

To learn more about avast! Antivirus, simply go to: <http://www.avast.com>

## Instructions to successfully install avast!:

01. Download to a folder you can find or to your Desktop the product avast! Free:

[setup\\_av\\_free.exe](http://www.avast.com/get/SxjHwFha) ( <http://www.avast.com/get/SxjHwFha> )

(Do Not Run at this time)

02. Download the REMOVAL TOOL for your current Antivirus Program by following the Guide offered here:

How do I remove old third-party antivirus software **before installing avast!?**

[Avast Support: Uninstalling a third-party antivirus software](#)

The removal tool for avast! Antivirus (should you ever need it) : <http://www.avast.com/uninstall-utility>

03. Once these 2 programs are **saved to your computer in a folder that you can locate** or, to the desktop and, you can easily identify these 2 files, **DISCONNECT FROM THE INTERNET**

04. Go to the Control Panel > Select add/remove > (Programs and Features in Windows 7 & 8) **select** your current antivirus program and **select** uninstall. (Allow it to uninstall all features of the program)

05. Reboot your system.

06. Run the removal tool for your old Antivirus Program saved in step #2

07. Once the tool finishes, **Reboot** your system and **Reconnect** your Internet connection.

08. Install avast! Free by running the program downloaded in step #1

**(Continued on the Next Page)**

09. Shutdown your system -- wait 10 seconds -- Start your computer.

10. Avast!7 Free will now be installed and will update its virus database.

11. Register your new avast! Free product by selecting the Register Now button.

If you need more help, get it from here:

<http://www.avast.com/registration-free-antivirus.php>

12. Once this is done, you'll be ready to enjoy the new product as much as I already have for many years.

**[FileHippo.com Update Checker](#) Helps you keep your installed programs up-to-date**  
**[Online Virus/Malware Checkers](#) Used to double check when you suspect a false-positive**

If you found this presentation helpful, **please** let your friends in other clubs know that it's available totally free of charge and without any strings attached.

If you're truly ambitious, letting Gracie at Avast know what you thought of the presentation would also be nice. ( If you didn't like it, it's still OK to let her know that too. )

You can write her at [roberts@avast.com](mailto:roberts@avast.com). Please put **Bob's avast! Security Seminar** in the Subject line.

(Attach a BCC to me: [bob3160@gmail.com](mailto:bob3160@gmail.com) Thanks)

I would also appreciate knowing that these instructions have been received and have resulted in a successful installation of avast! (Free or paid).

Have a great day,

Norbert (Bob) Gostischa
