

Igor Ledochowski - Conversational Hypnosis Professional Hypnotherapy Deep Dive

The Ultimate TRANSFORMATIONAL
Training Program For Hypnotists

You can think of it like this:

If you want to be an elite-level musician, you go to Julliard School in New York City.

You go into the program at whatever level you're at. Doesn't matter.

Because by the time you come out the institution you are an elite performer.

Likewise:

If you want to be an elite level hypnotist, you go through the Conversational Hypnosis Professional Hypnotherapy Certification Training.

You go into the program at whatever level you're at. Doesn't matter. Because by the time you come out the certification training you are transformed into...

An Elite "Performance-Ready" Hypnotist!

(Metaphorically speaking, of course!)

You will have the skills of an elite hypnotist.

You will have the resources of an elite hypnotist.

And you will have the internal mind-set to thrive in any situation where hypnosis is required.

The reason is due in large part to what some insiders are calling the "Ledochowski Protocol".

What's the "Ledochowski Protocol"?

Well, that's what you will learn how to execute at this year's Conversational Hypnosis Professional Hypnotherapy Certification Training.

But to give you an idea – it's a 4 STEP HYPNOTIC ESCALATION FORMULA that I myself developed and personally use to deal with every therapeutic or personal change work situation.

The power is in the sequence of the 4 step escalation formula.

And when you too learn how to execute the 4 step hypnotic escalation formula (which you most definitely will do at the live online training)...

You Will Have A Simple & Repeatable Hypnotic Sequence To Produce FAST “Turn Around” Results With Any Person And Any Issue

4 Step Escalation Ledochowski Protocol Again – the power is in the step by step sequence of the formula.

The formula will give you the power to be able to influence people in every day conversations – using the covert conversational hypnosis part of the sequence.

The formula will also give you the power to be able to help other people resolve their issues – using the proprietary therapeutic tools that are a part of it.

Something else that’s important for you to know:

By the end of the live online training you will be able to demonstrate the “hallmark” of every great hypnotist, which is...

Hypnotic Versatility

Hypnotic Versatility puts you on the “front foot” in any difficult situation when dealing with any difficult person.

So you’re never surprised or stumped by any person that comes to you with a particular issue they want your help resolving.

Something else that’s important:

As well as the practical content of the training – it’s the synthesized unconscious learning methodologies that sets the Conversational Hypnosis Professional Hypnotherapy Certification Training apart (and above) all the other training programs that are taught around the world.

See here’s why that is true:

The synthesized unconscious learning methodologies will enable you to learn and remember so much of the training at both the conscious and unconscious level in your mind.

You Will Just Know Meaning: by the end of the live training (a transformational experience)...

You Will Just “Know” The Right Hypnosis Techniques To Use In Any Given Situation

It will all just fall into place unconsciously for you.

In other words, you can go from unconsciously incompetent (no idea what you're doing) to unconsciously competent (like a "natural" hypnotist acts) within the 6-day period of the training and transformational process.

There's NO WAY you can get that kind of hypnosis transformation (from zero to mastery) anywhere outside of my synthesized unconscious learning methodologies.

Anyway, when you "combine" the Conversational Hypnosis Professional Hypnotherapy Certification skills training with the practical experience of 1-to-1 with many different fellow online attendees you are going to experience a fully-integrated hypnosis training and transformation experience that will be life changing for you as a hypnotist!

It will develop in you the mind-set of a master level hypnotist

It will make you an expert at doing DEEP, highly effective hypnotic inductions

It will make you a master at replicating my proprietary and ultra-powerful therapeutic processes

And it will make you extremely proficient (a "natural") at using advanced covert conversational hypnosis techniques in your everyday conversations.

And if you decide you want to take the certification at the end (which is optional)...

It Will Certify You As A Hypnotherapist With The International Association Of Professional Conversational Hypnotherapists (IAPCH)

IAPCH Certification

That way you'll have the same Conversational Hypnosis Professional Hypnotherapy Certification as myself (Igor Ledochowski) and my elite trainers. You'll also be joining an exclusive group of hypnotherapists who have been through this unique and transformational program.

You'll also have "access" to (and where appropriate, be able to use) the same kind of hypnosis & personal changes secrets that hypnosis masters have access to – including:

The REAL SECRET to being not just a good, but a truly EXCEPTIONAL hypnotherapist

How to get people into trance without doing an induction at all!

The secret that guarantees your clients will go into the right level and depth of trance every time

Exactly what to say to set up the right conditions BEFORE you start your induction

Get the information you need to create smooth and successful hypnosis sessions with this simple interview technique

Discover the most powerful conversation inductions that you can do anytime, any place, anywhere

How to perform both overt AND covert change work

The most important part of every conversational induction, that will make it undetectable every time

The 4-Step Escalation Process – a Foolproof Hypnotic System. (Never again will you worry whether a particular technique works with a client... you will ALWAYS have an easy and worry-free next step ready to go)

How to make sure your work “sticks” and stays with the client for long-term benefits

An ingenious yet simple way to do effective change work totally covertly – without even knowing what your clients problem are!

How to spot when it's right to delve into someone's past, and when to leave well enough alone

A conversational “stepping stone” induction for all occasions – do this as easily on an airplane as in your office

The key core pattern that takes care of 80% of ALL situations your clients will come in with (plus 3 more methods to quickly clear up the remaining 20%)

How to set up change work as part of a normal conversation... you're just having a chat and ‘bam!’, they're in a trance without even knowing it

One of Milton Erickson's favorite trance inducers: How you can use it to captivate and seamlessly move someone's attention as you deepen their trance

How to turn the induction INTO the actual change work itself, saving you tons of time, boosting your success rate, and allowing you to spend the rest of the session “installing” the change

5 simple steps for making language patterns SECOND NATURE to you. People will marvel at your eloquence and listen SPELLBOUND to your every word!

A little-known principle to make your inductions irresistible. The secrets of the “Non-Awareness Set”. This single technique lets you control people's attention easily, and it virtually GUARANTEES that they'll go into trance when you want them to

Plus much MUCH more...

And don't worry.

Even though the hypnosis principles and techniques you'll be learning (and “internalizing”) are incredibly powerful and almost unbelievably effective, they will be taught and demonstrated in such a way they will be simple for you to use.

You get to prove that to yourself at the live online training.

Because one of the main advantages of attending the live online training will be...

You Get To Participate In Regular Online “Break Out” 1-to-1 Practice Sessions
Where You Will Learn By Actually Doing!

You do the drills, you get the skills.

That simple.

But you've got to do the drills in the right way – and the only way you can guarantee that is if you're taught in real-time by a high caliber instructor like myself. I've also pioneered training people using online meeting rooms for the past 5+ years in programs like the "Hypnosis Diploma School".

Now, here is a quick look at...

The Structure Of The Live Training &
Your Certification Approval Process:

The Conversational Hypnosis Professional Hypnotherapy Certification runs over 6 days (Split into TWO 3 Day "Long Weekends" trainings) and the training & transformation process has been purposefully integrated and "synced" together as follows:

DAY 1: TRANCE ORIENTATION & KEY HYPNOTIC LANGUAGE:

Day 1 is your orientation day (we'll start the "registration process" and walk through of how the training works at 8 am USA Eastern Time – Formal training starts at 8.30 am (that's 1.30pm UK time and 2.30pm CET) and ends by 5pm (that's 10pm UK time and 11pm CET) with a 1 hour lunch-break and two other 15 minute breaks, getting you up-to-speed and immediately immersed in the hypnotic process. You'll focus on both trance and language, turning language patterns into something that's "second nature" to you. You'll be introduced to an entirely new style of hypnosis, and be doing inductions that you'll likely never have done before (or at least not for a while).

Get ready, because it'll be fast-paced and a lot of fun!

Many past attendees have come up to us and said they'd already got their money's worth for the whole training at the end of DAY 1.

DAY 2-3: HYPNOTIC INDUCTIONS & USING THE "NON-AWARENESS SET":

(From Day 2 onwards formal training begins at 8.30 am USA Eastern Time) Day 2 and part of Day 3 are all about inductions. And the great thing about these is that you'll learn how to do all the inductions both in a therapeutic context AND covertly in 'normal' conversations too.

And you'll be going 'deep' into one of the cornerstones of the course – the 'Non-Awareness Set'.

With this special set of skills nobody will be able to resist you.

DAY 3-4: CORE THERAPEUTIC PROCESSES & METHODS:

Now the focus shifts to covering my proprietary core therapeutic processes and methods. With the techniques, principles and approaches you'll learn here, you'll be ready for almost anything.

Not only will you discover how to clear away your clients' issues in a matter of minutes, you'll be equipped with a key and very rare ability. That is, to stack the odds in your favor so the change work 'sticks' when your client leaves the session.

And that's not all. You'll be introduced to the principle of 'covert therapy' (it's not what you think!), working with the past, 'tidy-up' methods...and the list goes on...

DAY 5: ADVANCED STRATEGIES:

Again, it's time to turn it up a notch. The powerful therapeutic skills you've learned now serve as the foundation for this stage of the training.

You'll be guided through the 2 key elements that make conversational hypnosis possible. And by the time you're done, you'll be ready to apply hypnosis in practically any situation you can imagine.

This is powerful stuff.

DAY 6: CERTIFICATION, DEBRIEF & WRAP-UP:

On Day 6 you'll have the option of going for the 'Certification'. This will certify you as a professional hypnotherapist by the board of the International Association of Professional Conversational Hypnotists, (the IAPCH).

Here's where you get to put your skills into action and prove to yourself how good you have become. And the format is simple: You'll perform a piece of change work, under supervision, and without any assistance.

As I said, this is optional and will involve a very small token fee i.e. \$1 (this is a legal requirement to separate the training from the actual certification process). No need to decide on this for now.

Finally, I'll wrap things up so that you're fully prepared to take your skills into the world. You'll retrace the ground you've covered and re-examine how to put it all together for maximum effect!

When I last ran this training in March 2020 it had been 9 years since the last Conversational Hypnosis Professional Hypnotherapy Certification Training I had run ... and this certification will be the ONLY one I run in 2021 with no guarantee I'll run another one in 2022 either.

As always I'm super excited as I always update the way I teach this program...

I hope you take this limited opportunity!

The answer is UNLIKELY.

Numbers are strictly limited and events sell out.

Not least because...

All of what you've just read adds up to perhaps the best "equation" you are likely to see on this year's hypnosis training calendar – namely:

The Conversational Hypnosis Professional Hypnotherapy Certification Training +
Being Taught By A Organization That Has Pioneered Online Hypnosis Training &
Online Practice Rooms =

The Perfect "Blend" Of Real Online Hypnotherapy Experience Delivering The "Gold
Standard" In Hypnosis Certification Programs!

So: If you want to make certain you get to experience the Conversational Hypnosis
Professional Hypnotherapy Certification Training (and get yourself certified as a
hypnotherapist with the International Association Of Professional Conversational
Hypnotherapists)...
