

I have made this document to commemorate the many hilarious happenings on BTC-e:

Simplyfun: which put it's out unless there's the proper mix of vapours in the air and the cigarette is burning brutally hot because it's an emergency flare

Simplyfun: :facepalm:

jasinlee: touche

Simplyfun: I do use waste ethanol to start my fire however

ruchg1: "oops" said Simplyfun

jackjohnson64: is anyone else having trouble withdrawing their btc from bitclockers?

Simran: Anyone have the link to baldazars G+ profile?

genBTC: clitblockers?

Simplyfun: Is tay away from other mens G spots

ruchg1: anyone remember clippy?

joshuaogradey: bitcockers?

Simplyfun: the office 95 paper clip animation

jackjohnson64: right now they're being cocks >.< I been trying to withdraw my btc for over a week but it just says there's an error

jackjohnson64: lucky me it's only 0.15 btc.... but still I want it xD

ruchg1: Simplyfun, yes, that thing.

Simplyfun: First decent MS office implemetnation was 4.3c for windows for workgroups 3.11

Barnacle_Ed: **ruchg1, oh you bastard. It took me 3 years of therapy to forget about clippy :madface:**

Simplyfun: so yeah I remember, I'm sitting here playing with my tandy pc-4 with a 4 bit CPU and 1K RAM

jackjohnson64: 4 bit CPU? Can that even be considered a processor? xDsounds more like a micro controller lol

Simplyfun: to us today that's what it sounds like

Simplyfun: online links

Simplyfun: 200Khz processing

ToxinalX2: ok that's it... I'm out of the market for now. I just erased last days progress.

jackjohnson64: Simplyfun what CPU you talking about? Something made in the 70s?

Barnacle_Ed: ToxinalX2, ouch

Barnacle_Ed: Could be worse. You could be the poor sap who bought NVC at .06

ToxinalX2: Barnacle_Ed, lol yeah

Simplyfun: HD61913A01 (CMOS 4-bit) @ 200kHz

Simplyfun: base ram is 1K but I bought and have the 1K expansion module

ToxinalX2: Barnacle_Ed, greed took the overhand... I rejected my earlier promise to not trade unless certain indications were there and some were not... you know, the usual "just perhaps though, I missed something and wow now it went even higher!"

ToxinalX2: "perhaps I should get me some before *the real rally* begins" lol

ruchg1: Barnacle_Ed, :trollface:

Simplyfun: do it

Simplyfun: I'll watch

ToxinalX2: oh well, I'm still + for the week and that's not bad for me

Barnacle_Ed: ah yeah. greed is a cruel mistress...

Barnacle_Ed: and hey, up for the week is always good

Barnacle_Ed: **ruchg1**, **:suspiciousface:**

serraz: aint nobody got time for dat

ToxinalX2: yep
