Digital lunch tables

To foster conversation across nodes and WPs we will try to assemble all participants into digital lunch tables in break-out rooms for the Wednesday lunch. Each node is encouraged to have lunch delivered locally. Depending on the success of this, we may repeat this format on Thursday, or switch to physical node lunches, also with catered food.

Local dinners

This year, we will try to maintain the team spirit from the All hands dinners and beers through local dinners at each node on 21 October. Local members of our stakeholder panel and board members are very welcome to join.

- The Bergen node will meet at [Lysverket](#) at 1800. To join, please visit [this form](#), enter the Bergen sheet, find your name, indicate whether or not you will join in the yellow field, and whether you have any dietary considerations.
