

It's Time To Plant A Tree

I've only got a minute or two
To sing to you
I look around it's plain to see
So much work to do
I guess it's time to plant a tree or two

The color of the world has changed
And I'm feeling blue
Everything is turning grey
What am I going to do
I guess it's time to plant a tree or two

Did you know a tree purifies the air
A tree can grow almost anywhere
Some can grow to a hundred and four
So please don't destroy them anymore
You can climb a tree and hide away
Smell the leaves in early May
Pick an apple or a pear

Killing the trees is so unfair

You can give another bird a home
It's so easy to do
Owls and squirrels and butterflies
Would agree with you
I guess it's time to plant a tree or two

(Instrumental)

If you want to change your world today
It's up to you
Remember what we're trying to say
It's long overdue
I guess it's time to plant a tree or two
I know it's time to plant a tree or two.
