

MUSH'S DR. ROBOTNIK'S RING RACERS MOD LIST

for use with Ring Racers Version 2.x

Console button is " ` " Key by default! Making an account at <https://mb.srb2.org> helps with finding and saving mods to categorize, check it out! The mod pages have more info on the individual mechanics of each mod and other important details you might need to know before using them. I def recommend reading into them before playing with them to familiarize yourself with how they work. Same as my other mod lists, I haven't played with ALL of these, but they're all worth checking out for one reason or another.

Check out my SRB2 Mod List here:

<https://docs.google.com/document/d/1Ke-BoG9Fjiz9-WZLuea-kYhJbVHPGoK-uvPsNrznFps/edit?usp=sharing>

Check out my SRB2 Kart Mod List here:
