## KASSIDY

She looked at him, eyebrows raised slightly. "I am told that I normally give off that vibe. You'll have to learn to deal with that if you would like to be friends." She said a small grin on her face.

## ADRIANUS

*What? She can't just---* His mind was barely processing anything. He barely even registered the fact that she was leaving, leaving him. After everything. He practically leaped out of bed to catch her before she left. "Liv?" He placed a hand on her shoulder and pulled her to face him, eyes radiating hurt. "W-what? What are you going on about? Are you...are you *leaving*?" He asked incredulously, not quite believing it himself.

[Ellaaaxp](#) [ScarletSwanHunter](#)

---

## Livana

"My - My mother. She killed him. I don't want her to kill you too. If she - If she even," She put a hand to her mouth to stop a sob from coming out. "I don't want to hurt you. You don't know my family. If you and I - If we - You'll hate me. You don't know my mother. She'll - I don't want her to hurt you. If she find's out that I like you she'll force me to," Tears rolled down her cheeks, remembering Jonathan's eyes as he looked up at her. Pleading. "I don't want to hurt you."

[Chidimma](#)

---

Alana lowered her eyebrows, "What? You didn't sound like you were bragging!" She smiled at him.

"What? No way! We've made it so far we can be classed as friends?" Callum said, pretending to be really excited. "This is the best day of my life. What an achievement, Kassidy with a K."

[EpisodeGirl5678](#) [Chidimma](#)

---

## Ryuu

Whenever she would fall he would catch her and smile, "Careful." He still couldn't find a nickname that fit, so he would have to keep trying.

## Blythe

She followed him out, wondering if she should lead the way or if he already knew where he was going.

[EpisodeGirl5678](#)

---

**KADEN LOCKES**

I grin. "Good, then." I say, smiling, and relieved I hadn't come off that way.

[Ellaaaxp](#)

---

**CAMILLA GASTON**

"Aww, you're so sweet!" I say, glad I had someone to help me like this. When we reach the locker, I say, "So what was it that you had wanted?" I had already forgotten.

ORP: Ship or No Ship? That is the question...

**JASON**

In the entry hall of the school, I am already lost, but don't want to admit it. I walk out the doors, hoping to find the forest.

[ScarletSwanHunter](#)

---

Alana smiled at him, "Yeah.."

[EpisodeGirl5678](#)

---

**KADEN LOCKES**

I nod at her, not knowing what to say. "SOOOOOOO, Uh, do you like any sports?" I ask her.

[Ellaaaxp](#)

---

**Nolan**

"I've read. A pick read actually. You know your books huh?" He couldn't help but be impressed. It was rare for someone to know that book, then again most people back home were as dumb as his father. Near to all of them couldn't read or write at all. The only thing they ever needed to read was the prices at the local bar. Nolan had never been one to drink. "And my preference are everything. I can read anything and everything. You can learn a lot, even from fiction."

**Macee**

"So why are you here then, because they haven't told me the reason yet. They just sort of invited my friends and I." *Oh thank god you don't know who that is.* "It was strange but we really had nothing better to do." He lied, with a smile. He never thought he would be happy to meet someone who has never read about Le Fay. He would usually be offended but, in this case it was a blessing.

**Alexander**

"So are you like one of those guard people? You don't ask question, you just do?" Must be really boring. Alex couldn't even begin to imagine just standing around all day. He would surely fall asleep if he did that. "What do you do for fun? Do you have fun at all?"

[LTea](#)

---

## RAE RAE

She smiled, feeling happy in the arms of Elana, not thinking that something like this would've ever had happened to her.

## ADREAN

His eyes widen in fear as he watches her fall. He races towards her as she hurtles through the air, but even he knows he won't get there in time. His heart lurches as he hears the thud of her body hitting the ground and he desperately runs towards her. He sits down beside her and picks up her head, stroking it. "Call!"

## ADRIEN

He raises an eyebrow. "She sounds pretty. You guys dating or something?"

## CANDICE

She huffs in annoyance. Why couldn't she just let her be fine? Why did she have to to push her? "I'm fine! You didn't do anything because I'm fine!" She says, her voice rising in irritation a bit.

## ADRIANUS

He wipes away her tears with his thumb. It broke him, seeing her cry. He had assumed she was this unbreakable girl who never cried, and it seemed he was right until now. He mostly didn't have any idea what or who she was talking about, but he understood that she thought that he'd hurt him. *If she leaves, It will hurt more than being killed by her.* "And I don't want to leave you. You won't hurt me Liv. Just, please, don't leave. Please." His voice cracks a bit, and he pulls her into a hug, afraid that if he let go she would bolt.

## KASSIDY

She laughs. "I know. This is like you've won an Oscar. You should be extremely proud of yourself, Callum."

[EpisodeGirl5678](#) [ScarletSwanHunter](#) [Ellaaaxp](#)

---

Alana sighed, thinking about any sport she found interesting. "Not really.." She said. She wasn't really interested in whether he did, but she asked him anyway. "What about you..?"

"I definitely am." Callum said while closing his locker.

[EpisodeGirl5678](#) [Chidimma](#)

---

Livana

*How pathetic I am. Crying. Breaking your promise already? What happened to never crying ever again? Please be quiet.* She leaned against him, gripping his shirt and burying her face in his chest. He was warm. It was comforting. "You smell nice." She said, following her tradition of trying to change the subject once again.

[Chidimma](#) - To allow her to change the subject or not... Hmmm

---

KASSIDY

She smiled; it seemed that they'd get along just fine. "Where're you off to?"

[Ellaaaxp](#) How do you pronounce Callum? Is it Kay-lum or Kal-um or something?

---

KADEN LOCKES

I nod. "I'm trying out for every sport this season." *Because it's what my Dad wants.* "You should try out. You have a good build for it."

ELANA SNOW

Still swaying to the music from my phone, I say to her, "You are the best thing that has ever happened to me, Rae." I squeeze her shoulder in a loving way.

CALLIE CHARMING

Tears run down my face. I feel pain shooting up and down my body everywhere. I feel *broken*. It hurts to move, but I reach my hand to his face, cupping it gently. "Adrean, I'm sorry I lied," I choke, spitting up a little blood.

ORP: THE DRAMA! :0

ACE LABOUFF (Castleria with Adrien) **{TALKS ABOUT TIARA A BIT}**

"Not exactly," I say to him, smiling. To the compliment of her, I nod. "Oh, she is."

VALENTINA (Candice's Dorm)

My entire face turning red, I yell at her, "WELL, YOU'RE OBVIOUSLY NOT!" Throwing the rocks and broken flowers to the ground, I storm away, angry that she had gotten angry at me for trying to help.

[Ellaaaxp](#) [Chidimma](#)

---

Ryuu

"I believe it was candy, sweetheart." He smirked, leaning against the lockers.

Blythe

She followed behind him, "You know where you're going?" She had already memorized the school's floor map.

[EpisodeGirl5678](#) - Wait which one? Ship which one? If it's Ryuu and Camilla well just wait and see... 😊

---

## **ADRIANUS**

He frowned. He wasn't going to let the whole conversation just disappear like that, no matter how much he wanted to. "Liv." He rubbed her back, but he gazed at her in concern. "We can't just stop talking about this. Not even a minute ago you were going to leave. Saying something about your mother and you killing me...? This won't just go away." He says gently, kissing her hair.

[ScarletSwanHunter](#) HA like I'd let her just get away with it.

---

"Don't really know, is there a class happening soon?" Callum asked, feeling unorganised.

Alana lowered her eyebrows, "hm, not really interested. But have fun."

[Chidimma EpisodeGirl5678](#)

---

## **CAMILLA GASTON**

This nickname, I like. I giggle, and wink at him. "Oh, my candy!" I open my locker, and everything but the kitchen sink immediately falls out. I start digging to look for the candy.

## **JASON**

"Yeah, I think so," I say, looking around, and walking around in small circles.

[ScarletSwanHunter](#) Either ... 😊

---

## **KADEN LOCKES**

"Alright, thanks." I say.

[Ellaaxp](#)

---

Ryuu

He chuckled, getting down on his knees to help her dig through her pile of stuff.

Blythe

She giggled, and decided to help him. She cleared her thought and featured her head to the left in the direction of the forest.

[EpisodeGirl5678](#)

---

## **RAE RAE**

"You are the best thing that's ever happened to me, Elle." She says, looking back into her eyes.

## **ADREAN**

His eyes widen at the blood, but he cleans it up quickly with his sleeve. "It's okay, it's okay. God, just let her be okay." He says, near tears. He looks around desperately, for someone, *anyone*, who could help. "ANYONE? HELP!"

## **ADRIEN**

He lifted a shoulder, "You should introduce me to her sometime."

## **CANDICE**

She flinched away. She hated when people yelled at her. She let Valentina storm off and she stared at the flowers and the rocks on the ground, tears pooling in her eyes.

[EpisodeGirl5678](#)

---

## **CAMILLA GASTON**

Since he laughed, I also laugh, very loudly, and a little maniacally. I finally dig out a purse from the pile. "AHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHHH!" I yell triumphantly.

## **JASON**

"Thanks," I say, blushing, and a little ashamed I hadn't known. I start walking in that direction.

[ScarletSwanHunter](#)

---

Livana

"But I want it too." She said, listening to his heart beat to calm herself, "You'll hate me if we keep having this conversation. I just know you will. They all do." If only she hadn't kissed him back. If only she hadn't created that storm. If only she hadn't sent that bird. If only she had made a correct turn. If only she hadn't messed up the door. If only she hadn't wore that dress. If only she hadn't chosen this school. If only she hadn't been born to her mother. She wouldn't be in this mess. If only she had kept her mouth shut. *I'm sorry Jonathan*. She remembered she had not cried when he died. She remembered she had not shown any remorse. She had not grieved. "They always despise me. I don't want you to despise me. Look at me like - " She couldn't finish, her voice shook too much.

[Chidimma](#)

---

Ryuu

He smiled, "A purse?"

Bylthe

She giggled. He was cute when he blushed.

[EpisodeGirl5678](#)

---

## **KASSIDY**

She lifts a shoulder. "Probably...I don't know, really. Classes kind of fade away while you're here."

## **ADRIANUS**

"I want it to go away too." He says softly, stroking her hair. "But it won't. You know it won't." He pauses for a moment, just holding her tight. He couldn't believe all this had happened in the same day. He never would've guessed he'd meet someone like her and then have her want to leave him, all in that same day. "I would never despise you, Liv. You can't do anything that would make me despise you. I really like you and I couldn't bear it if you left."

[Ellaaaxp ScarletSwanHunter](#)

#### **Nicholaus | (Morning, Library)**

I feel my face go red slightly. I should have shut up before I had started, now I'd just be another pointless book nerd. "Yeah, I read stuff, and yes, you certainly can learn a lot from them. It's the only thing I'm good at." That was a lie, I was good at a great many other things too, half of which were because of the books I read. It was always entertaining when someone said they couldn't use magic, because if they had just taken the time to read the right books, they'd find quite a hefty amount of spells and magic usable for non-magic beings. "You're going to have to narrow it down somehow. I'm not going to list off all the books in this library. I've only read a third of them." *Then we left, while I was in the middle of a fairly interesting book on resurrecting the dead.* Not that it would have helped my father's curse, as my mother and sister weren't exactly *dead*, just... well, yeah. "I bet you can't read *everything*." I mumble aloud, going to one of the shelves and browsing for a book he may not know. "I saw a book once, didn't even have writing, just these small jewels imprinted into the paper. They'd glow when you ran a dead man's finger over them. Don't ask how I worked that one out." I pull out a book. "What about your father's story? Have you tried reading that?"

#### **Michalai | (Morning, Cafeteria)**

I laugh. "Ouch, good serve my friend, good serve." I muse, grinning. "I was sent here, at first, in case my father had one of his accidents again. Then the war happened, we went home for a bit, and now we're back here because..." *Because Lycomedes and Odessa want to cause the most chaos here...* "Well... As you say. Nothing better, and this place is a good laugh." As we reach the cafeteria, I notice the table with a mark where Paige had thrown her knife at me. *A good laugh indeed.* I smirk to myself.

#### **Atlas | (Morning, Boy's Dorms)**

"I am serving a punishment for my father and grandfather's actions against Zeus." Atlas stated, not even looking at the boy, as he stood quite high over him, and had no reason to look him in the eye. "I am forced to serve the worst of mankind, or those I would suffer the most from serving. One of those actions is guarding, as ordered by the lady Pandora. The rest varies depending on the whims of her children, Lycomedes and Odessa, excluding her eldest who is currently turned to gold."

[ScarletSwanHunter](#)

---

#### **CAMILLA GASTON**

I nod. "Yep! This here is Betty. Say hello, Betty!" I wave the chicken's wing at him, and make a clucking sound. "Betty says you're sexy," I say matter-of-factly, reaching into the purse for the candy.

#### **JASON**

I look at her, smiling in a confused way. Why had she giggled? We arrive at the front of the forest. "Okay. We're here. I think we should go right." I say, trying to look deep into the forest.

[ScarletSwanHunter](#)

---

*Not even if I have killed thousands. Millions. No even if I have taken down villages. Cities. Giving eternal winter. "What an honor to be liked by a prince." She joked. "And I thought your brother wouldn't want me here." You wouldn't despise me if I was the daughter of the most evil person in Narnia. "I like you too. That's why I don't want to leave either." She murmured.*

[Chidimma](#)

---

Nolan

"Must have been a interesting book." He nodded. He was sure he had heard of that book from some traveler that had come by the shop, but he couldn't place a name. "And you're right, I can't read romance novels. To mushy for my tastes. And most seemed to become cliched after a while." This was indeed true. He saw them more unrealistic than fiction, and here fiction was reality it seemed. He rolled his eyes at the mention of his father's story. "Didn't need to read it. I couldn't leave the house without hearing the amazing tale of how he managed to trick a young damsel. Probably the most interesting thing he did his whole life. There wasn't a person he wouldn't tell the story to. You start to want to hit him in the jaw by around the twenty fourth time." He growled looking through the books. He had lasted a fair fourth time, before he slammed his father's fingers into a door.

Macee

"A war? With who?" He lifted a brow. He hadn't heard of any wars, then again he didn't keep up with the news to often. That was more of his fathers business. He probably should start actually listen to some news, now that war has began.

Alexander

"I'm sure they're not, 'the worst of mankind.'" He smiled, "I mean, no one is truly bad. I'm sure they have their flaws but everyone does." *Who in the world was Pandora? Wasn't she the one with the necklaces.* He wasn't sure why this guy was protecting them, but their jewelry must be worth a lot. He wondered if it was possible to steal some. Then again he also wanted to keep his thumbs so his priorities were on keeping his body parts.

[LTea](#)

---

Ryuu

He scratched the back of his neck, "Well Betty, tell you're owner that she's beautiful." He smirked.

Blythe

"Alright. Seems fair." [Ru, where in goes name are you!](#) She started inside, feeling the knife in her boot clinging to her skin. She would need it. Bears could be in the forest.

[EpisodeGirl5678](#)

---

**CAMILLA GASTON**

I put Betty next to my ear, and bob her up and down like she is whispering something to me. *Sexy Man says you're beautiful,* Betty tells me. I blush happily. "THAAAAAAAAAAAAAAAAAAAAAAAAANNNNNNNNNKKKKSSSSSS!" I say smiling at him admiringly. What a nice guy he was. "Hold out your hands for the candy," I singsong, having found some in Betty's stomach.

## **JASON**

I head to the right, hoping this was the direction Camilla had headed in, if she had even gone into the forest.

[ScarletSwanHunter](#)

---

◆Ishaani◆

"Whoa! That's awesome!" she exclaimed. "Does he or she go here?"

◆Rahul◆

"Souls, huh?" He said. "That's pretty cool."

[EpisodeGirl5678](#)  
[ScarletSwanHunter](#)

---

## **ADRIANUS**

He smiled, appreciating her attempt to lighten the mood. "Good," he says, holding her closer. He didn't want to break the moment, but he thought the question should be asked. "So what do you mean about the whole 'mother controlling you and making you kill me thing'?"

[ScarletSwanHunter](#) Sorry for taking three years to respond!

---

Ryuu

He chuckled, holding out a hand. "Want me to close my eyes to sweetheart?"

Blythe

"Do we split up?" She asked.

[EpisodeGirl5678](#)

---

Audrianna

She smiled, "Thank you. You can learn a lot from souls. I still don't know you're story though."

[Purple Rose](#)

---

## **Nicholaus | (Morning, Library)**

I glance at him sideways, opening the book I was holding and flipping through the pages. "Romances are somewhat... awkward to read, but even I can't say they're entirely useless. Love is a battlefield, and what battle isn't interesting. Though you're right, most writer's can't seem to mimic that level of story-writing well." I find the page I'm looking for, and a small smirk reaches my face. "Perhaps you should read it. Everyone tells there own story in their own way. Heck, even my father twists some of the details, and his moto is to 'learn life by mistakes'. You should always hear both sides of a story, even if you've overheard one." I bite my tongue. Talking too much again, this is not a good habit. Still, I scan through the pages of the story. It wasn't the original, though I had a copy of that in my personal library back home. "Your father must have missed some of the

details, though the books sometimes do too. My fathers says nothing about my mother. Not one. Not accurately, anyway." *For gods sakes, stop rambling about stories! This guy is known for trading off weaknesses, do you want to tell him ALL your secrets?!*

#### **Michalai | (Morning, Cafeteria)**

I shrug. "It's not a mortal world thing. See, my father's story comes from ancient Greece, so the question on how I, a mere mortal, am still alive and not several feet below dirt, is thanks to a rift in time caused by a unique magical feat. My father had a priest of the gods create it, and it separated our time from earth's, letting us live somewhat immortally. Time is slower over there." I stretch, trying to recall the full explanation of it. "So, before you start worrying about earth being at war, don't fret. Anatolia's been in a war for decades, with this noble family you probably haven't heard of... *"though you likely will soon, as they just happened to come with us."* "Also, it doesn't matter now. We're currently at a truce. How about you? I shared my secret. I doubt you could have much worse in store." I laugh easily, wondering what Macee would say if he knew about Lycom's many sadistic plans.

#### **Atlas | (Morning, Boy's Dorms)**

"They are, or I would not be serving them." Atlas states. Without Lycom making orders, he picked up on the rare opportunity to warn the boy. It was up to the boy, after that, to decide what to do with that warning. "If you can believe in a person who is pure good, you should also believe in a person that is pure evil. I can promise you, of the centuries I have spent serving different people, there most certainly *are* truly bad souls out there." I nod my head towards Lycom's room. "What you saw then was nothing to the hell those people bring with them. I would know, I've seen hell, my father literally escaped it." He glanced down, wondering if any of this would make any difference, not entirely caring either way. If it did, good. One less person to potentially torture and kill. If it didn't... oh well. This boy didn't matter. Not to him.

[ScarletSwanHunter](#)

--Mihi Waialiki--

I laughed as I absent-mindedly put my hand on top of his on the table.

\*Peanut\*

"Yeah! We'll be soooo famous!" Peanut said excitedly, the mean hooman already forgotten.

~Cameron Canes~

I finished up my apple and waited for Sea to finish.

^Aella DunBroch^

I continue to scan the crowd, looking for someone to talk to other than Matisse. I mean, I was *trying* to be social, at least.

[Ellaaaxp](#)

[Kittenlove](#) - Can you reply to Petelo please? 😊

ANY DUDE APPROACHABLE?

---

Livana

She was to scared to tell him the whole truth. So she decided to be as vague as possible again, "My mother, she never liked me with anyone, says it ruins our political strategy." *Also says males are the worst thing, since what father did to her.* "So

when I started dating this guy named Jonathan, she found out and... I - He - and I was there... watching. He pleaded, but I - and he said he was going to be okay. He wasn't. I didn't save him. And I want to at least save you. She - she had me to kill him. I did it." She calmed herself enough to ask, "Hate me now?" *Do you fear me yet?*

[Chidimma](#)

---

>~>Piper<~<

*Nasties? Oh, you mean faeries. I shook my head processing everything. Wait, the Nasties. I only knew of two other Nasties-faeries at this school. Paige and Parker. I guess I'm a wilder... but the Nasties are my siblings. I just lived in the wild so... he wouldn't find me.*

~>~>Maddie<~<~

"Well considering I'm 3 inches high... yes, you are tall. Really tall! Now help me!" I yelled.

>~>Parker<~<

"Nobody you want to get tangled up with," I muttered. "That bell I gave you? If a tall guy named Mich starts flirting with you, ring it and I'll come punch him."

~>~>Roxy<~<~

"A lot of black mail? Oh, you though I meant actual black mail. I meant blackmail, one word, it means to force someone to do something." I popped the shrimp in my mouth.

[LTea](#)

---

## **ADRIANUS**

"Oh Liv." He parts from her, holding her shoulders. "I told you. I could never hate you." He kisses her gently on the lips, but he parts quickly. "It wasn't your fault, you know that, don't you? Your mother made you do it, right?" He shakes his head, "I know you probably didn't want to do it, Liv. It's okay." He strokes her hair, trying to make her know that he was telling the truth. He knew that he had done some bad things in his life too; which was partly why he knew that he couldn't judge her.

[ScarletSwanHunter](#)

---

## **TIARA**

I nod excitedly. "Yes, he does!" I bubble.

## **CAMILLA**

I laugh. "Nah, you don't have to," I say to him. I put 5 donut holes on his palm. "Here you are!!!" I sing again.

## **JASON**

I shake my head. "No, it could be dangerous. I don't want any of us getting lost."

## **STARR**

I woof, also forgetting the stupid hooman. "We will be stars!" I say, imagining what our life would be like after our album.

## **SEASHELL**

I finish the apple, and tuck the core in my purse, so I can throw it away later.

[ScarletSwanHunter](#) [Purple Rose](#) [Mashia](#)

>>Max<<

"Wait..." The puzzle pieces started to click in my mind. "Lola Ann! Stop that!" I yelled. If it wasn't Lola Ann, I would look crazy. But I was pretty sure it was her.

>>Cora<<

I nod. "That looks good." I so did love sailing.

[Mashia](#) - sorry! [EpisodeGirl5678](#)

---

ORP: Sorry for the short responses I have to eat dinner.

Nolan

"Oh no, trust me he didn't miss a single detail. Even thing was in full fledged explicit detail. For all I know, my father could have written his own story." He stating, opening a book. He read the first page and put it back, *Nope, read it.* He glanced at Nicholas. *You're right on the first bit, but you don't have anything to give me in return. I can assure you are safe. For now.*

Macee

"Glad to know." Okay, not an idiot. Glad to know that the person he was talking to him wasn't completely incapable of though. He actually seemed to know what is going on.

Alexander

He's eyes went wide. "Understood. Sir." His heart started to quicken in his chest. "Th- thank you."

Cecil

"Alright." He grabbed onto the swing, letting it come to a halt.

Liane

"Isn't flirting a good thing? Why would you hurt him?" She thought back to all the stories she has read.

Roan

"Oh. Okay, blackmail then."

[LTea](#)

[Kittenlove](#)

[Mashia](#) - I don't know how to respond to that.

## LOLA ANN

She winced as the elbow elbowed her in the face, but it was not too bad of an injury that she would die or anything. She rolled her eyes as Max figured out who she was. "Smart pretty boy." she muttered to herself. She stepped away from the girl and approached him, poking him in the chest. "You're no fun." She said, knowing that he wouldn't hear her anyway.

[Kittenlove](#) [EpisodeGirl5678](#)

>>Kai<<

I was very confused. "What are you talking about?" I asked. "What choice?" The person standing before looked like my mother, but what was she doing here and what was she talking about?

[LTea](#) - hehehehehe

### **Whisper** | (Morning, Front of school)

Whisper was torn. One one side, nasties were nasty and deserved being bitten. On the other, Whisper had hidden in the wilds too! *Do you know Soft Voice? Do you see her too?* Whisper continued to watch Little Gingy, eyes wide as it worked out what to do. *Did he send the searchers after you, too?! What about those big creeper thingy's? Or the Banshees?!* Whisper grinned with needle sharp teeth. If she was like Whisper, she was important, and also a friend. Screw her nasty siblings. Little Gingy knew what real hardship was like, being alone in the wilds of the faerie realm, with nobody to help you. Where everyone stomped on you, or twisted your wings - if you were a creature that had them.

[Kittenlove](#)

---

>>Max<<

I blindly stuck my hand out, until I felt an arm. I grabbed it tightly, so she couldn't escape. "I'm taking you back to Darlene," I said, annoyed.

[Chidimma](#)

---

### **LOLA ANN**

She narrowed her eyes and struggled against his grip, upset that her fun had to end so quickly. "Meanie." She growled, glaring at him. She struggled harder, flailing her arm about to try and get him to loosen his grip. "Leave. Me. Alonnnne."

[Kittenlove](#)

---

\*Peanut\*

Peanut meowed in laughter. "We shall be "Starr"s," she snickered happily.

~Cameron Canes~

"Ready?" I smiled.

>Petelo Waialiki<

I went up to the person at the front and quickly rented the boat. I went back to Cora and jumped into the boat, gesturing her to do the same.

### Odessa (As Cinderella) | (Morning, Forrest)

I take a hesitant step towards him. *Not Aura then... Though I'm hardly surprised. She's a tough one to love, hehe.* "You know what I mean, don't make me say it." as I approach him, I catch my reflection in the golden knife in his belt. So it was him? Well, clearly Aura didn't mean nothing, if he kept such an idle trinket on his persons. But the woman in the reflection... she was blonde and blue eyed like him. A woman in her ages, but still rather radiant, I had to give her that. Perhaps a mother or aunt? either way, this wasn't a lover. If it was, he had some questionable tastes. Still, how best to use this?

"I needed to see you, my dear. To tell you... I'm sorry." I break down in tears, falling to my knees. "I... I couldn't wait until you returned. I-I just... *I'm so sorry.*"

[Kittenlove](#) : I can still use this... \*evil grin\*

"You - you don't?" She was taken aback. "Do you have no sense of danger when it's coming your way? I just said I could *kill* you." She stated again. "Most people would have kicked me out. ### CALLIE

My eyes grow heavy, and I gaze upon his face, trying to memorize every detail in case I never see him again. A single tear streams down my face. Everything is sore. Everything hurts. "Please..." I whisper faintly. "Get my brother Kai..." I want to see Kai before I die, if I die.

## **Nicholaus | (Morning, Library)**

"You can't say that until you read it." I mutter, glaring at him slightly as I place the book on the table, open to the story of his father. *He's arrogant because he thinks he knows everything. I bet if he met Atlas, that would give him a run for his money. you don't know everything until you've actually **seen** everything, after all.* Turning back to the books, I quickly find the last one I had been reading, and a second nearby that was written in faerie. Whisper, to my surprise, was also an avid reader, though it preferred to write crude poems more than anything. Still, it had insisted I practice my Faerie language by reading, and as none of the books in any library I knew of actually *had* books written in faerie, most of what I read had been those very rude poems. It was good to have something less insulting to read, though I would have liked to of found the book that Whisper threw back into the faerie realm.

### **Michalai | (Morning, Cafeteria)**

I wait for a response to my question, not entirely surprised when he doesn't answer. I click in front of his face. "Hey. I asked a question. I shared my fun secret, so spill. Give me *something* at least, I've been in a silent carriage most of the day." I mutter, trying to hear something interesting.

### **Atlas | (Morning, Boy's Dorms)**

He continued to stand, unfazed by the thanks or even the use of Sir. It wasn't as if he was noble... then again, he had been a prince, at one point in his long existence. Another glance down at the boy, and Atlas remembered where it was he knew the boy from. Son of Aurora, the princess who was cursed to sleep. His grandfather had enjoyed that story, watching as the witch attacked a kingdom using it's own monarchy. He wondered what the boy would think of the event that had happened before his mother's story. A grim tale, with the same sleeping lady, but a far darker ending. He returned to standing blankly, returning his mind to silence for the sake of the boy, waiting for his next order.

An I jus' did, so f\*\*\* yeu !" he laughed randomly, and shoved out his hand, remembering that that was what the land laddies did in greeting.

### **Lycomedes | (Morning, Front of school)**

I had just finished torturing one of the teachers into silence, as the fool had caught me red handed with a skinning knife in my belt, and now lived to know how one felt after failing to disarm me before I had broken his arm. Much to most people's regret, I didn't need the lanky guard dog of a god to do my bidding. Why, when I enjoyed doing the tasks myself. I had just finished wiping the blood of my knife, strolling down the corridor and using the teacher's jacket sleeve as a cloth, when I noticed someone walking the other way. I cocked my head, watching her every step, and out of pure curiosity unleashed *my* power on her. Odessa changed herself into a desire. I changed pure nothings into an illusion of their worst fear. I was curious to see what this person's would be.

Is that... "AURA! OH MY GOSH!" I run to her, almost tripping. I tackle her to the ground, and wrap her in a hug. Then, remembering she probably wouldn't like this, I quickly stand up. "Sorry. But how are you here? Why are you here?" I squeal, and clap my hands. My best friend and roommate was back! I stand in front of the school, blushing nervously. *What if they don't like you? What if they make fun of you? You're different.* I brush the thoughts out of my mind. Almost as beautiful as Pixie Hollow.

"You're a slippery one, aren't you?" I muttered mostly to myself as I kept a firm hold on Lola Ann's arm and dragged her towards Darlene's dorm. It must've looked really strange to Cara, my hand clamped around thin air. "Darlene is my girlfriend, Lola Ann is her... friend."

"Sea." he stated simply, jerking his thumb towards the ocean. He sniffed the air, smelling smoke and diesel, and turned around to notice a bike was up in flames. "Crikey, who di 'aat?" scratching his head, he turned back to the girl, and shoved his hand out for her to shake again. "Name's 'ayden. Got lost on me wey 'ere. This be eh fancy school'n, 'ight?" He cocked his head at her. "You ah mermaid?"

**Aurarius|** (Morning, Front of school)

Unable to move out of the way in time, I groan slightly as I sit up from the ground. A footman from the carriage rushes over to help me, but I raise my hand for him to stop. "Just don't tell Lycom." I mutter, more glad that Atlas hadn't appeared out of nowhere to beat Cara to death. I quickly get to my feet and dust myself off, turning back to Cara with a small smile. "I appreciate the greeting, but you could have been more tactful." I say, joking slightly. I hesitate at her question. I had managed to keep her out of the story, and I didn't want her getting caught up with Lycom and Odessa. "I... uh. There was a truce in the war, and... we were allowed to return." *I didn't want to come back here, truth be told.* I smile at the excited girl. "How have you been, my friend?" *I'll save the fact that we're no longer roommates for later.* It was true, though. As of today, Odessa was my roommate now, much to my regret. Even Cara was better than her.

### *Whisper* | (Morning, Front of school)

Whisper frowned again. *Whisper lived with some too, until they had their heads squished by a Creeper. Whisper also stayed with a couple of Kelpies, but a Banshee made them eat their own ears, and they died shortly after. Was very funny... Not really. Whisper was terrified, but Whisper was often terrified back then. Nasty hunters don't scare Whisper now!* Whisper flared into a wolf again, and sat panting at Little Gingy. She was okay, not like her Nasty siblings. *Little Gingy should meet Whisper's friend, Fluffy. Fluffy is learning faerie, but he's an idiot, reads lots of stories, needs a friend that looks like him. But, you're a midget, so maybe not?*

### Odessa (As Cinderella) | (Morning, Forrest)

*Is that so?* I reach out to him, arms open. "Kai... please... I can't. I don't know how to say this... *Please don't make me say it.*" I let my arms drop slack to my side, tears streaming and voice broken as if... *Oh... this is what I live for.* "Kai... I'm sorry. I wish I had been there for you. I wish... I wish I could change everything. *I love you, Kai.* Please, don't ever forget that." As I let the appearance shimmer, looking as though it was a vision of a ghost, I lower my gaze. "Look after your sister for me, my sweet. Look out for each other... for me." He still wouldn't see me, but oh how I did hope he picked up on those hints. If he didn't think he was seeing the ghost of his mother, he was an idiot.

>-->Paige<--< (Warning: a little gory)

I was just strolling along when something happened. The temperature dropped about 10 degrees, and goosebumps rose on my arms. My unfortunately very bare arms, since I hadn't been able to change since the Adrien mishap. And I saw Parker and Piper. Lying on the floor in front of me, dead, murdered. I screamed. Not something I usually did, but this was a special case. *He* was here also, standing there, laughing at me, the blood from my siblings pooling around his feet. My hand dropped instantly to the knife that I had stashed at my side.

*Paker! Parker!* I cried out desperately in my mind. This horrific scene couldn't be real, mustn't be real. There was no response. I didn't think it might be because he was too far away. I thought it was because he was dead. So I stood there, frozen, a tear trailing down my cheek.

LTea - hmm, well, was that ok?

---

🎀 Cara DeVille 🎀

Oops. I didn't mean to hurt her. I wondered who Lycom was, but I had already asked enough questions. "Sorry," I apologize, "I was just really excited to see you." I giggle. Nodding at her response, I smile, and say, "Well, I'm glad you're back. School isn't the sane without you!" When she asks me how I've been, I smile gratefully, happy she cared enough to ask. "I've been alright," I say. "But lonely." I look down. "I didn't have many friends, and you know how Kai feels about me." I hoped she would help me try to win Kai over again, but I understood she had been through a lot, and might not want to. I knew she might even have feelings towards him. The last time I saw them together, they were sleeping on each other... I grin. "I'll be so glad to have a roommate once again!"

He shrugged. "Fine \*ss." he said, as if that was an answer. "Mermaids gotta 'ave fine \*sses. If they down', no sea man 'll \*\*\*\* em." he let out a monstrous laugh, then half way forgot what he was laughing about, and stopped with a frown. Looking around, he cocked his head. "Why am I 'ere?" he mumbled, confused, taking one of his flintlock pistols from his belt. he shot it once into the sky, not even looking up, and moments later a seagull dropped down. He lowered his glasses again, tilting his head to see it with his eye, and paused. "Aye, Berty! Told you not t' go flappin' by me 'ead." he detached his leg and swung it like a golf club, sending the dead bird soaring back into the sky. "See you again, mah feathery friend!"

**Aurarius** | (Morning, Front of school)

I hold back the urge to lecture her on her priorities, instead continuing to smile hesitantly. "I overheard that your roommate had changed. A girl named Piper? Or am I mistaken?" I feel myself twisting the ring around my finger again, and quickly hide my hands behind my back. "Still, I'm sure you are over dramatizing your situation. What about Kai's sister, Callie? Everyone knows that a way to a man's heart is through family. If his sister is supporting you, you have little to worry for."  
*Just don't ask me what I think of him. If Lycom or Odessa were to hear anything, even a rumour, I'd have suffered my silence for nothing.*

#### **Lycomedes | (Morning, Front of school)**

I grin wildly, savoring that bloodcurdling scream as if it were the richest desert I'd ever tasted. The sweetest melody, and the most interesting scene. Most people feared their family's death, but this... This had a whole new level to it. Who was that man, and who were those corpses? Oh, this was a good bit of fun. I let the image shatter, only after she had become somewhat paralyzed for too long, and how could a stranger mentally ruin a paralyzed person they didn't know? They couldn't, that's how, I needed to know this young lady first. Besides, I also needed a reason to keep up my games. I had tortured strangers for years. hurting people I knew was a far better game, and my sister had some of the *best* screams to date. I stride up to the girl, cocking my head as the smile faded behind a look of concern. "Are you alright?" I asked, innocently, holding out a hand to help her up.

#### **Odessa | (Morning, Front of school)**

"I couldn't stop it. I couldn't save myself. They came in and... out of nowhere... I..." I sobbed. "I just wanted to see you both! one last time..." I hold out my arms, tears staining the illusioned dress, face the image of pure loss. I had seen it so many times, I could mimic the face so easily. *"I'm so sorry, Kai."*  
*come on.... cry for me, pretty boy!*

#### **Hayden | (Morning, Front of school) Warning, It's Hayden, he's being crude**

Hayden shrugged, reattaching his leg and strolling past the girl he had already forgotten the name of. "Yo ho, aye and row, singin' a ringin' to call em' lads 'ome. Till I meets meh tail'er on the wreck o' the sea. An' till her fine tail be ah wrappin' round me!" He sang, voice rugged and swaying as he pulled a bottle of rum from his jacket. he grinned at the girl behind him. "Ever 'erd o' the reason why the sky's blue?" he thrust his bottle towards the sky. "Poseidon took a wazz, and 'is p\*\*\* stained it like sea wa'er. Does it every nigh', aims for teh sun!" He laughed, creasing over himself. He'd of course made that all up, but even he didn't know that.

#### **Whisper | (Morning, Front of school)**

Whisper laughed, which sounded weird as a wolf, sort of a huffing sound. *Fluffy came with Whisper! Tried to teach Whisper mortal ways, but Whisper wouldn't listen! Nobody tells Whisper what to do!* Whisper tapped it's paws against the ground, dancing smugly and grinning. *Little Gingy should see the Big Dog, son of a God. I sigh, my face was always saying a lot. "Do what you like, It's not my business to tell you what to do." I shrug, watching him carefully. *Should I warn him about Lycom?* Nah, let him suffer. He'll need his magic and tricks then. Oh, speaking of that. "Wait. There is a book you might not have read. The original Copy of Pandora's box. a... person I know... had all of them burned. Don't suppose you've seen one round here?" I ask casually, but the question is more urgent then it would appear. I now had two problems on my hands, my father's curse *and* Lycom's insanity. If I could find a solution to both, that would be great, but I didn't fear for my life when it came to my father. I did for the latter.

**Michalai | (Morning, Cafeteria)**

I roll my eyes. "Secrets, gossip, whatever. You got any? As I said, I shared my story, time to spill yours." *Don't make me get Altas to beat it out of you.* I pause. Since when did I start thinking like that? A shiver makes it's way down my spine, though I hide it. I didn't need to go crazy like *him*. Was bad enough he was going to be part of the family.

Strong lass, fine \*ss, an eh good scottie musk. You're ah sea-man's wet dream, I tell ye!" he laughs.

**Aurarius| (Morning, Front of school)**

I smile distantly at her hopefulness. "I highly doubt that. My new roommate is... *persuasive*, when she wants to be." I freeze up slightly at the mention of Kai. "Nothing happened, nothing will, I can promise you that." my words are cold, but she needs to understand. I continue twisting the ring behind my back. "Kai and I are just friends. I was just helping him, and..." *gods, it seems so long ago. But time moved differently, slow on earth, fast out here... wherever here was.* "...And nothing like that will happen again. I can promise you, swear on my name and all that I own, there is *nothing* going on between us." I can't meet her eyes, and I didn't want to. I had repeated those words to so many people. My father, Pandora, Lycomedes, Odessa... The only one who hadn't asked me stood as the only one I thought would care. But, as always, he didn't need to ask to know. He just *knew*. I sigh, returning to a small pained smile. "I am glad to see you, again, Cara DeVille. It has been a long time."

[Mashia](#): again, do forgive my rude language. XP

ORP: I can tone it back if you like.

~Cameron Canes~

"Sure," I smiled as I saw a woman get up and walk over to the sea. I quickly scampered over and took the towel she was lying on and handed it to Sea sheepishly.

\*Peanut\*

"I'm sorry," Peanut said sadly, peering at the page of symbols.

^Aella DunBroch^

"Great," I said, biting my lip and took another gulp from the bottle still in my hand.

[EpisodeGirl5678](#)

[LTea](#) - All good, I actually find it amusing XD

---

**Hayden |** (Morning, Front of school)**Warning; swearing, bleeped**

"Tis great. Tis bloody rare an' all." he pulled out one of his pistols again, and began twisting it round his finger, not really paying attention to the trigger. "ain' this place an 'aven fur stories? Doe that mean you come from eh book too, or som'en?" He cocked his head at her. "Which B\*\*\*\* birthed yu, 'en?"

[Mashia](#): Lol, sorry. I was raised by men, very few barriers when it comes to writing. XD

---

^Aella DunBroch^

I rolled my eyes. "That's a mystery for another day," I replied, avoiding his question. I silently eyed his pistol.

[LTea](#) - XD

---

**Hayden |** (Morning, Front of school)

Hayden frowned. What good was a mystery like that? Then again, he hadn't said who's son he was either. "Mermaid made meh." He stated, somewhat proudly. "Left meh to mah pappy an' swam off one nigh'. Dad bawled like eh babe." He noticed her watching something, then followed her gaze to the spinning pistol in his hand. He smirked. "Oh, lookie 'ere! Been

wonderin' where Caren was." he flipped it, and aimed, pulling back the lock and squinting. "Bet ye aye can shoot that carriage window." he paused, noticing two lasses chatting on the other side. His dad said not to shoot at ladies. Best not, for now. instead, he offered the fully locked and loaded gun to Aella. "Wanna shoot?"

^Aella DunBroch^

I smirked. "Sure," I said as I took the pistol from him. I looked around and saw a lone tree near the building. I pointed, aimed and shot right into the middle of the trunk and I turned back to Hayden with a proud smile. The archery lessons actually *did* pay off.

**Hayden |** (Morning, Front of school)

Hayden nodded. "Aye, ah sharp shot." he mused, somewhat impressed. "Bet yah can'ne do this!" he challenged, taking off his shades and tossing them high into the air, while pulling out his second pistol. He shot three times. Twice shot a clear hole right through each lens, the third shot another seagull. He blew the smoke from the top, and grinned at the dead bird that fell out of the sky. "Warned yah, Berty. Ain't sayin' eh twice." he tucked the pistol back into his back pocket, and pulled a second set of shades from his jacket pocket, placing them over his eyes to cover the harsh scar over his right. He pulled a third bottle of rum out of another jacket pocket, and took a long drink. "Go on. Aye bet yah meh bike if you can do'ieh."

I grinned; he did not know what I was capable of. I rummaged through my small backpack and took out a single, mini arrow. I then proceeded to take out an elastic band to use as a bow. I looked around once again. After spotting a few items, I aimed my arrow just under a birds nest, making the mother bird fly out squawking which alarmed the squirrel at a tree in the opposite side of the area. The squirrel dropped its nut onto a resting bunny which quickly hopped away in front of a couple where the guy screamed and jolted up, running into a tree. "Wasn't that just entertaining? A mini arrow shot at a tree can make just enough damage," I smirked.

[LTea](#) - Well, that chain was hard to think of 0\_o

**Hayden |** (Morning, Front of school)

Hayden shrugged. "Yer righ'. here's mah keys." he stated, tossing her his motorbike keys. He then pulled out his pistol and shot the rabbit, bird, squirrel and the gap between the girl and the now unconscious guy. She really did scream, and ran in the opposite direction, and Hayden burst out laughing. "Why make just enough, when yeh can make plenty!" he spun the pistol back into his belt, and went to leave, not entirely sure where. He paused, then pointed to the pile of rubble that used to be his motorbike. "Tha's yurs now, by the weh." he continued laughing, and drinking his rum.

[Mashia](#) - lol. Hayden doesn't have that same level of tact. He just shoots and asks questions later. also, feel free to keep talking to him if you want. He's just wandering.

---

^Aella DunBroch^

I caught the keys in one hand and gaped as he shot at the animals and scared the girl. *This guy is insane...* I looked back at the motorbike and groaned. "Great, I'm the new, proud owner of rubble," I said sarcastically, rolling my eyes. "Well, seeya later alligator," I saluted, feeling a little tipsy from the long swigs I took from the rum.

[LTea](#) - Mwahaha tipsy Aella and Hayden shall meet again >: )

---

Callum laughed slightly and said "well i guess we aren't going to class then."

"I'm going to go, i'll talk to you later." Alana said, then walking away. *I wonder when i'm going to get the news back about my roommate..* she thought.

Matisse rolled her eyes at her sister, who had already gotten distracted by a guy. "Bye.." she said while turning to her locker.

[EpisodeGirl5678 Chidimma Mashia](#)

orp: Matisse and Alana are approachable!

>>Cora<<

I nod, really hoping I won't crash into something.

>~>Parker<~<

I look down, and realize I've been gripping her hand much to hard. "Oh, sorry," I say, embarrassed.

>~>Piper<~<

I laughed. *I'm sure.* I couldn't imagine this little Fae acting like a mortal. *My siblings don't know where I am. They can't track me like they can each other.*

~>~>Madyson<~<~

"Thank you." I looked at the juice. As it was taller than me, I was going to have to be creative and figure out how to get up to the straw.

~>~>Roxy<~<~

"My dad is Puss in boots," I tell her. "He can talk."
