INTRODUCTION

It is expected that authors will submit carefully written and proofread material. Careful checking for spelling and grammatical errors should be performed. The number of pages of the paper should be 8 and 28 at least and at most.

Prepared papers should clearly describe the background of the subject, the authors work, including the methods used, results and concluding discussion on the importance of the work. Papers are to be prepared in English or Turkish and SI units must be used. Technical terms should be explained unless they may be considered to be known to the congress community.

MATERIALS AND METHODS

Provide sufficient detail to allow the work to be reproduced. The uniform appearance will assist the reader to read paper of the proceedings book. It is therefore suggested to authors to use the example of this file to construct their papers. This particular example uses this paper format with 25 mm margins left, right, top and bottom.

All text paragraphs should be single spaced, with first line intended by 0 cm. Position and style of headings and subheadings should follow this example. Spaces placed between paragraphs should be 6nk.

Fonts

Papers should use 11-point Times New Roman font. Captions should be in Times New Roman font.

Tables and Figures

Figure captions and table headings should be sufficient to explain the figure or table without needing to refer to the text. Figures and tables not cited in the text should not be presented. The following is an example for Table 1. Figure and table captions should be in Times New Roman font and 11-point font size.

Table 1. Title of the Table

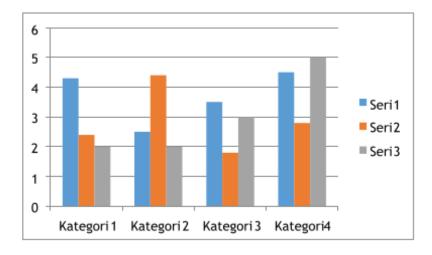

Figure 1. Title of the Figure

Equations

Each equation should be presented on a separate line from the text with a blank space above and below. Equations should be clear and expressions used should be explained in the text. The equations should be numbered consecutively at the outer right margin, as shown in Eqs. (1) - (2) below. Here is one example.

In this case, the governing system of equations can be written as follows: J

•
$$(m \ \ y(\ \))^T Q(m \ \ \ y(\ \)) (1)$$

Submitting the Paper

The full paper has to be submitted to the e submission system on the website of the conference.

This section should explore the significance of the results of the work, not repeat them.

RESULTS

Results should be clear and concise.

DISCUSSION

This section should explore the significance of the results of the work, not repeat them.

CONCLUSION

The main conclusions should be summarized here, and can also include recommendations or suggest application of the results beyond the study.

ACKNOWLEDGEMENTS

Sponsorship and financial support acknowledgments should be included here. Acknowledging the contributions of other colleagues who are not included in the authorship of this paper is also added in this section. If no acknowledgement is necessary, this section should not appear in the paper.

REFERENCES

Articles cited in the text should be referred to as follows:

- By the surname of the author(s) with year of publication in parenthesis. Example: Lawson and Michler (2014)
- If both are in parenthesis, no punctuation separates the name(s) of the author and the year of publication. Example: (Lawson and Michler, 2014)
- If there are more than two authors only the senior author's name is given. Example: (Lawson et al., 2014)

References should be listed in alphabetical order according to the name of the first author.
