

SWEETWATER COUNTY SD #1

CANVAS WORKSHOP PARKING LOT

Please use this space to ask questions! I will try and answer them as we go, but no matter what, I will provide an explanation and links to applicable resources to help you. This resource will be used for ALL training sessions and will, hopefully, serve as an FAQ after our sessions are complete.

Question	Trainer Explanation/Canvas Guide
Is there a guide for preparing my course for grade passback to PowerSchool?	https://docs.google.com/document/d/1hLMzzx2AlrVkGti_gync8rFcPCWyXu7dmg7nW0J76io/edit?usp=sharing
Will unpublished assignments show in the PowerSchool gradebook?	Nope! Only assignments that have grades in them will publish.
Can I use my Microsoft Office OneDrive Account to connect to Canvas?	Yes! Even though the district doesn't use Microsoft, you can still add the Microsoft O365 App to your course. Go to Settings and the Apps tab, and search for the Office 365 App. There will be instructions you will need to follow to create a Consumer Key and a Shared Secret to add O365. This will also work for personal OneDrive accounts.
