

Patchouli Essential Oil

Embrace the earthy depth of Patchouli Organic Essential Oil. Sourced from the leaves of the *Pogostemon cablin* herb, this oil brings a grounding, calming effect with a rich, earthy aroma and subtle fruity notes. Whether diffused to create a relaxing atmosphere, used as a base in your favorite fragrance, or incorporated into your skin care routine, Patchouli adds balance, warmth, and richness.

With an earthy, spicy, sweet scent, Patchouli makes a lasting impression, which is why it's a favorite fixative in perfumery. While it's often associated with the 1960s counterculture, Patchouli has a much longer history, once so valuable it was traded for gold. In the 1800s, it was even used to scent fabrics to protect them from moths. Beyond its fascinating past, this essential oil offers a variety of natural and beauty benefits, making it a must-have in any collection.
