Description & Loadout

Physical Description

Appearance

Zeva Ven Drakon, is a young female Twi'lek-Togruta hybrid. The color of her skin is a similar shade to her fathers light orangish, but slightly darker. There are traits from both her Twi'lek mother, and Togruta father. While her gentle round face with a tiny button nose is framed by the two prehensile Lekku extending down just past her collar bone, the bases of which connected with her small horn-like Montrals, while she has a third smaller Lekku that extends from the back of her head, all are the same color as her skin. There are curved fainter like orange markings extend from the tips of her Montrals all the way down to the end of her Lekku. Her tiny ear cones are only slightly hidden.

She has her mother's purple eyes, though they are much brighter and starrier, greatly contrasting with her skin. As does the soft white diamond like shapes on each of her cheeks, and the upside down curved triangle taking up most of her forehead, contrast . The last and most unique marking is also white and in the shape of a crescent moon on its side, which can be seen at the base of her throat.

General Aspects

We’ll Break Their Legs

Zeva Ven Drakon can be very protective, and when any of their friends are being bullied or threatened, they will step in to defend them. This can gets Zeva Ven Drakon in trouble when they refuse to back down during these exchanges, and sometimes has trouble discerning between friendly teasing and intentional insults. However, because of this fierce loyalty, their friends know that no matter what, Zeva Ven Drakon will be there for them.

Child at Heart

Zeva Ven Drakon is perfectly capable of fulfilling responsibilities and doing their duties. But goofing off and having fun will always have a heavy sway in their decision making. They sometimes ignore orders or find ways to spend as much time avoiding an assignment as possible.

Personality Aspects

Ooh, Shiny!

Zeva Ven Drakon is mesmerized by anything shiny and can easily spot shiny objects from a distance. This makes them good at finding things of importance or value, but they may also be distracted by pretty baubles.

Outside The Box

Zeva Ven Drakon is a lateral thinker, and when they encounter problems or dilemmas, they are very good at improvising and coming up with alternative solutions. This allows Zeva Ven Drakon to find ways out of situations others might give up on. While these solutions are often not so obvious to others, Zeva Ven Drakon can typically explain and lead others through their plan...as long as they are patient and willing enough to trust them outside thinking.

Combat Aspects

Tiny, But Fierce

Zeva Ven Drakon works hard to maintain an image of fierce tenacity despite being of a smaller stature. To that extent, Zeva Ven Drakon has learned to not take jabs about their stature offensively, but to instead burn them quietly as fuel for their inner spirit. The flame that is sparked as a result is controlled by Zeva Ven Drakon's discipline of never overestimating their own abilities or those of their opponents. They has trained to fully utilize their size as an advantage when fighting larger opponents. They know exactly how to leverage their weight to deliver the most effective take downs or maneuvers. The effort to maintain this image can be draining at times, and when outmatched or overwhelmed, Zeva Ven Drakon becomes susceptible to a loss of spirit.

Dirty Fighter

When it comes to a fight, some like to posture, some like to act tough, some like to dance around and go through all sorts of fancy footwork. Zeva Ven Drakon? Zeva Ven Drakon doesn't bother with exotic battle stances, intricate maneuvers, or super-secret tactics. Zeva Ven Drakon, when cornered into a fight, prefers the ancient technique of a good kick to the nuts. And if that won't work, either because the enemy is a woman or has balls of steel, Zeva Ven Drakon isn't beyond pulling a few more cheap tricks out of the bag. Granted, Zeva Ven Drakon won't be winning any medals for nobility or any prestige for a unique fighting style or a superb maneuver, but Zeva Ven Drakon will still be winning, the best and most dirty way they know how.
