

OpenSciEd Bulk Downloader Instructions

Updated July 23, 2024

OpenSciEd provides a variety of methods for teachers to access the instructional materials, including via PDF download and a view-only preview of Google Document formats. To make the use of the materials even easier for educators, we also now provide an option to make a copy of units using a Bulk Downloader application. This app has been approved by Google and is designed to make a copy of the entire unit to the Google Drive folder of a user's choice. In order to do this, users will need to complete a few steps and give permission to Google to access their Drive. Our privacy policy ensures that the bulk downloader application will never be used to access data in the user's Google Drive: it only writes new data there. It also never reads a user's data files out or stores them anywhere. The application does read the folder structures to help users navigate where to put the downloaded files. Users can also remove permissions immediately after the files they want are downloaded.

Step 3: when prompted, sign in with your Google account with your email and	Sign in - Google Accounts Counts.google.com/o/oauth2/v2/auth/oauthchooseaccount?gsi G Sign in with Google
With your email and password or select the account you would like to use if already signed in. The copy will be placed in the Drive owned by the account you put in at this point.	 Sign in with Google Sign in Sign in Sign in Continue to OpenSciEd Bulk Downloader Forgot email? To continue, Google will share your name, email address, language preference, and profile picture with OpenSciEd Bulk Downloader. Before using this app, you can review OpenSciEd Bulk Downloader's privacy policy and terms of service.
Step 4: Grant OpenSciEd's Bulk Downloader permission to see and download all your Google Drive files. This step sounds scary. Know that this is not information that OpenSciEd sees or stores; it is information that the application uses to install the unit's folder structure and files. If you are uncomfortable, you can always access our view-only version of the unit and make your own copies. • The Bulk Download

The Bulk Downloader can take between 5-30 minutes to fully copy all of the folders and files for the unit.

The lessons that start with the number 1 will be copied

Copy the Unit to your Google Drive

first (1, 10, 11, 12, etc), followed by the rest of the lessons.

The link below will add an editable copy of the unit to your Google Drive

 Check your drive in a few minutes

 Output the one obscurrent.

Step 6: Go to your Google Drive to find your very own copy. Enjoy!

The Bulk Downloader will have made a folder structure as follows in your Drive

> OpenSciEd Bulk Downloader Output
