General Information:

All artworks are provided digitally. No physical delivery.

I work as a 2D generalist on a 5/2 schedule. Commissions are completed in my spare time, so the completion time is between 2 weeks to 2 months.

I take on work with pleasure but value my mental health and try to avoid burnout. Thank you for your understanding and patience!

Communication is important: I send WIPs (work-in-progress) and discuss changes. Feel free to write if you're worried or want to know the status of your order.

Prohibited Uses of My Work:

In NFTs and projects related to neural networks.

For commercial use without prior approval.

Without crediting the author (do not remove signatures or claim authorship).

For AI generation, training models, or training LoRA.

Payment:

Payment is accepted only via: Lava.top

This platform supports payments by cards and by PayPal.

100% upfront payment after slot confirmation.

If you send payment without prior agreement, it will be considered as a tip.

Payment must be made within 48 hours of order confirmation.

Orders are not accepted "in line" — I choose what I'm comfortable working on.

VAT (taxes) may be included in the price depending on the payment platform.

Right of Refusal and Refunds:

I can refuse an order before starting the sketch with a full refund.

After the lineart is confirmed, no refunds are possible.

Once the draft is confirmed, the order will be completed (even if something goes wrong, except in extreme cases).

Process and Edits:

- Draft (sketch)
- Lineart + Color
- Render
- Final details

You can make up to 2 free revisions during the lineart/color stage. Additional revisions are charged separately.

The concept can be changed before the sketch begins.

I reserve the right to publish the artwork as a portfolio example (if you haven't paid for privacy — an additional +20% will be added to the price).

Upon request, I can send the PSD file or a timelapse (agreed upon in advance).

Copyrights:

All rights to the artwork remain with me, even after the sale.

The buyer may use the artwork only for non-commercial purposes, any other use is negotiated separately.

Posting the artwork with author credit is allowed.

Printing for personal use is allowed.

Modifying the artwork is only allowed with my permission.

Frequently Asked Questions (FAQ)

 When will I receive my order?

It usually takes from 2 weeks to 2 months, depending on complexity and my schedule. I will keep you updated, show progress, and warn you if there are delays.

 Can I pay later?

No, unfortunately. I start working only after full prepayment — this helps me plan my schedule and ensures the order is secure.

 What if I want to cancel my order?

If I haven't started the sketch, cancellation is possible with a full refund.

If the lineart is confirmed or the coloring has begun — no refund.

If you change your mind — please let me know right away. I will understand 

 What does "privacy +20%" mean?

By default, I reserve the right to publish the completed work in my portfolio, on Boosty, and on social media.

If you want the artwork to remain fully private and not be shown anywhere — an additional +20% will be added to the price.

This covers the potential loss of visibility and advertising for me as an artist.
