

# Commercial Hand Tools in Chicago

## **Meta Description (155 characters):**

Find durable commercial hand tools in Chicago—shovels, hammers, pliers, wrenches, and more built for contractors, landscapers, and municipal crews.

[At A&A Equipment and Supply](#), we provide Chicago's contractors, industrial crews, municipal teams, and commercial landscapers with the professional-grade hand tools and [commercial products](#) they rely on every day. Whether your projects involve utility, roadwork, demolition, commercial concrete, asphalt paving, or municipal construction and maintenance, our tools are built for durability, precision, and heavy use.

We proudly support general contractors, utility contractors, asphalt paving companies, concrete contractors, pool companies, roofing crews, road builders, landscapers, electrical and plumbing teams, landscaping firms, and municipality maintenance crews, supplying tools that perform reliably on Chicago's toughest projects.

## Shovels for Construction and Landscaping

Shovels are a cornerstone of every construction and landscaping project. Our commercial-grade shovels are designed for excavation, grading, and material handling. We carry major brands such as Jackson, Marshalltown, Kraft, and Razor-Back with a variety of styles to meet the demands of different jobs:

- **Point Shovels** – Perfect for digging and breaking soil
- **Square Shovels** – Ideal for moving bulk materials like gravel, sand, and asphalt
- **Scoop Shovels** – Efficient for asphalt pavers and handling loose materials
- **Spade Shovels** – Specialized for narrow trenches and utility work

We also have a unique offering of long-handle, short-handle, and fiberglass shovels. All shovels are [ergonomically designed](#) for balance, comfort, and long-lasting performance.

## Construction Paint for Marking

Reliable marking and coating products are essential on every jobsite, from laying out underground utilities to protecting exposed surfaces. Our professional-grade construction paints from Aervoe and Seymour deliver durability, visibility, and performance in demanding field conditions.

### **Our product lineup includes:**

- **Inverted Marking Paints** – Fast-drying, high-visibility colors for utility, excavation, and survey work—designed for use with marking wands or by hand, and available in water- or solvent-based options for lasting performance in the harshest conditions
- **Marking Wands** – Marking wands with wheels or no wheels

- **Industrial Coatings** – Long-lasting formulations for steel, concrete, and equipment surfaces that stand up to weather, abrasion, and chemicals
- **Fluorescent and Safety Colors** – Ideal for temporary markings, hazard identification, and high-contrast layout work in low-light or high-traffic areas

Contractors trust both Aervoe and Seymour paints for consistent spray quality, superior pigment retention, and [environmental compliance](#). Whether you're marking utilities or refinishing equipment, our paints help keep jobsites safe, organized, and professional.

## Utility Finishing Tools and Hose Accessories

Utility finishing work demands precision, safety, and reliable tools that hold up under daily field conditions. From [setting structures](#) to securing loads and managing water flow, our tools are built for the rugged environments that sewer and water contractors face every day.

### Our product lineup includes:

- **Wrenches, Pliers, and Bolt Cutters** – Heavy-duty options for tightening and cutting fittings, bolts, and couplings on pipe and valve installations
- **Fiberglass Probes and Post Hole Diggers** – Designed to safely locate utilities and set poles or markers accurately
- **Steel and Nylon Chokers** – High-strength lifting and rigging straps for moving pipe, structures, and heavy equipment safely
- **Binder Ratchets and Tie-Downs** – Essential for securing loads and materials during transport or on-site staging
- **Manhole Hooks** – Ergonomic, durable tools for lifting and maneuvering manhole covers and inlet grates
- **Levels and Leveling Rods** – Precision aluminum and wood levels for setting grade, alignment, and elevation in underground installations
- **Measuring Wheels and Fiberglass Measuring Tapes** – Accurate, easy-to-read tools for layout and measurement up to 100 feet—ideal for staking runs, verifying grades, and estimating footage in the field
- **Discharge and Suction Hoses (PVC and Mill Discharge)** – Available in 2" and 3" diameters for water transfer, dewatering, and general utility use
- **Camlock Fittings (Male and Female) and Strainers** – Quick-connect couplings for fast, leak-free hose setup and breakdown in the field—available in thin, wide, and long 2" and 3" strainers

Every product in our utility finishing lineup is contractor-tested for strength, performance, and ease of use, ensuring your crews can work efficiently and safely from setup to backfill.

# Asphalt and Concrete Finishing Tools

From roadwork to [flatwork](#), dependable hand tools are essential for achieving a professional finish on concrete and asphalt jobs. Our selection includes everything from surface prep and finishing equipment to layout and cleanup tools—built to handle daily contractor use in demanding conditions.

## Our product lineup includes:

- **Lutes and Tampers** – Ideal for asphalt placement, grading, and compaction to achieve smooth, even surfaces
- **Concrete Sprayers** – Designed for applying form release agents and surface treatments with precision and durability
- **Trowels, Scrapers, and Chisels** – Professional-grade finishing and detail tools for clean edges and smooth results
- **Pull-Crete and Pinch Bars** – Heavy-duty tools for concrete placement and form alignment
- **Street and Garage Brooms** – Industrial bristles for the cleanup of concrete dust, asphalt debris, and slurry
- **Torchman 500,000 BTU Torch Kits** – High-output heat for patching, thawing, and material prep
- **Hammers and Paint Brushes** – Essential tools for framing, formwork, and marking applications
- **Pickaxes** – Standard pickaxes, railroad picks, and cutter picks to break up hard ground, rocks, and concrete
- **Temporary 4" Street Tape** – White and yellow street tape available in rolls up to 50 yards
- **Tie-wire** – Appropriate tie-wire for rebar tying needs

Each tool is selected for rugged performance and ergonomic handling, supporting efficiency from prep to final finish. Whether paving driveways or pouring foundations, our finishing tools help crews get the job done right—on time and on grade.
