

# Opening and Turning in Assignments in Kami (for Students)

## Opening Assignments

- Find the assignment you need to complete. Open the assignment as you normally would in Schoology.
- When you click on the assignment, there will be a new “Open Assignment with Kami” button.

Test Course: Section 1 ► Assignments

### Kami Assignment

Open Assignment With Kami

- Select the “Open Assignment with Kami” button.
  - Kami will open and load the file in a new tab. The file will also be automatically uploaded to your Google Drive and shared with the teacher’s Google account, so they can view the work in progress.
- *Note: The first time a student uses Schoology with Kami, you will need to link with your NPS Google account.*

### Setting up Schoology and Kami

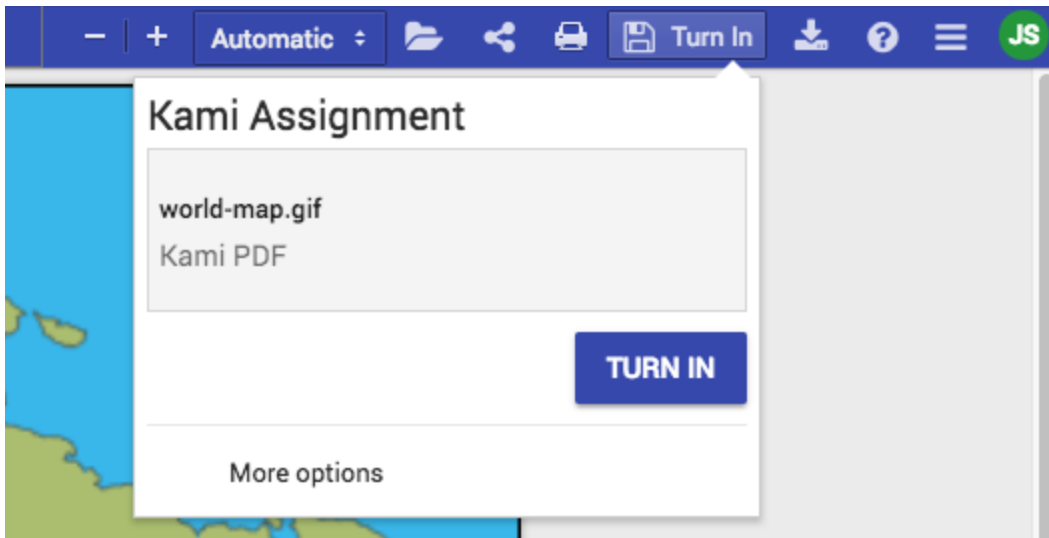

This integration makes it easy to work with your Schoology assignments in Kami and turn them in when you are finished.

Click the button below to link your Kami account with your Google account. The files you open will be uploaded to your Google Drive in a 'Kami Schoology Assignments' folder. (You will only have to do this once)

**LINK MY GOOGLE ACCOUNT**

## Turning in an Assignment

- Once you have finished your assignment, you can click the 'Turn In' button at the top right inside Kami.

- Select the purple “Turn In” button.
- This will export the document with your annotations/edits and bring you back to Schoology.
- Once in Schoology click 'Submit' to complete the submission.
