

Electricians (updated October 2025)

3/7/25 - **William G. Hyman Electric: The Old House Wiring Specialist**, service@hymanelectric.com, www.hymanelectric.com, 301-622-1777 (Vladimir on East Hamilton)

3/6/2025 – **Corey Electric**, corey@coreyelectricllc.com, 240-876-4651. “Corey installed some new outlets in our basement just a few weeks ago. He’s pretty awesome and really knows the houses around here. Also, outlets and circuits were a flat rate, which was nice. He was pretty sure he had already done work in our house before we bought it, and lots of my immediate neighbors had also used him and had nothing but positive things to say. One note, he only takes cash or check, but he was very understanding when I told him I didn’t have either on hand (they were still packed away), and he was fine with me sending a check in the mail once I found them.” (Andrew). “I second the recommendation for Corey. We’ve used him since 2019. He’s very responsive and very respectful of property. He’s terrific.” (Susan on Granville). “We highly recommend licensed electrician Corey Gray. We first knew Corey as a teen at CCC, the church on the corner of Indian Spring & Colesville (now known as The Well). He was a precocious ‘tech guy,’ then went on to become a licensed electrician. He’s smart and also a very good guy.” (Ann on Indian Spring). “Corey is totally reliable and does great work. Prices are very fair and reasonable.” (Irv on Garwood). “We have used Corey for over 2 decades. We’re very pleased with his work. He understands these old homes. He’s respectful of property and always cleans up after himself. Can’t recommend him highly enough.” (Susan on Granville). “He knows our neighborhood and does great work.” (Elise). “Corey is popular so if you need it immediately, you’re out of luck. Very reasonable prices, sterling reputation, very familiar with and has a great relationship with MoCo inspection process. You don’t pay until the work is done.” (Mollie)

12/15/24 – **SH Electrical Service**, [Sh Electrical Service. sorin@shelectricalservice.com](mailto:sorin@shelectricalservice.com). “We’ve discovered a great local electrician named Sorin Hanean. He’s very knowledgeable, does excellent work at a fair price and is great to work with. We’ve had him do small jobs like replacing the light fixtures on our front porch, and right now we have him doing the big job of replacing our electrical box.” (Leslie on Evergreen). “Recently we used an electrician from the neighborhood for a basement lighting job: Sorin from SH Electrical. Excellent work, local business. (Tom on Saginaw). “Sorin is excellent to work with!” (Brit and Jed)

12/14/24 – **Marvin** (no surname), 240-671-8703. “He has his own company.” (Sahra)

1/18/24 – **Matt Durantine**, cityelectricsservice@gmail.com. “Seconding the recommendation for Sorin. He is excellent to work with!” (Bella on Granville)

1/24/24 – **V&A Electrical**, 301-440-3100, 2901 Newton St., Silver Spring. “The receptionist Raquel helped me prepare in advance so that when the electrician arrived he could do the jobs needed efficiently. I was very happy with their work.” (Kim on Seminole)

1/4/24 - **YC Electric**, ycelectric.com. “We’ve used Yi of YC Electric. Highly recommend.” (Betsy on East Indian Spring)

1/4/24 – **KC Electric**, Mike Plakotaris, mplakotaris@kcelectric.com. “For over 20 years, my husband and I have used the services of Mike (formerly Mike Strunk). Mike is simply a great guy, skilled, with a strong work ethic, and who sets customer safety as his highest priority. Not expensive. Call and leave a message. Mike will always call you.” (Arlene)
