A Good Girl's Guide To Murder

Holly Jackson

● Over 64,000 females over the age of 21 living in the U.S go missing per year. Pippa, a determined teenager, is solving a case of a missing girl that is reportedly dead. ***A Good Girl's Guide To Murder* by Holly Jackson illustrates, it's important to have courage for a happy outcome.**

#2 When a note was typed on Pip's computer, this illustrated courage and a wanting to pursue a goalPippa, an active teen, writes her college acceptance letter about a murder that happened five years ago. Pip doesn't believe what the police say. As time goes on, someone is typing notes to scare Pippa off the case so that she doesn't uncover the truth. At first this was just a girl trying to solve a case for an essay, but now this has got more and more dangerous. As Pip looked back on the past, she realized the notes typed were unpredictable and more threatening than to be thought. Thinking back about the moment... "Pip gasped. Below her final words someone had typed: *You need to stop this Pippa*" (Jackson 265). Pip was surprised, someone had broken into her room and typed on her essay saying, *You need to stop this Pippa*. This quote is important because this shows how even when times got to the point when Pip couldn't sleep for weeks, she still was very valiant and had lots of courage.

When Pip told Ravi that she will go in alone, this showed courage can lead to a better ending/outcome. Pippa, and her "partner in crime" Ravi Singh are discussing who is going into the house. Everyone already has so much against Ravi since his brother was accused of murder and suicide. So Pip stepped up. " 'I was being stupid. I know you can't take the same risks I can. I'll go in alone. Maybe you can keep a lookout?' " (Jackson 195). As Pip stepped up to go into the house alone, this showed how having courage can have a happy outcome.

I would rate this book a 10/10, this book is filled with thrill and adventure. I loved reading this book and it was hard to set down because it would leave you off on a cliffhanger.
