Press Release from the Bull Moose Party

My fellow Americans, the results of the recent State elections have been disappointing for our party. We acknowledge that the Federalists have won these elections fairly, and we concede to their victory. The American Republic has now devolved into a one-party state, with no room for dissenting voices. We at the Bull Moose Party however, pledge to keep fighting. As long as there is hope for change, and voices willing to carry the torch of progress, we will continue to fight for Progressive reform throughout the Government. The stranglehold of the Federalists cannot and will not last forever, and we will lead the charge to restore true Democracy to the United States. While many have criticized our movement as inept and doomed to fail, our resolve has never been stronger, and as much as the Federalists may want it, we will not dissolve until freedom is truly restored to these great United States.

Commander_Johnsonson, Bull Moose Press Secretary
