

## **Our Special Thanks to the supporting Nurseries in Fairfield:**

### [Colonial Gardens](#)

1174 Bronson Road (203) 259-2722

Colonial Gardens & Greenhouses has proudly served the Fairfield area for 30 years. We provide a full range of organic garden supplies and native plant cultivars. We provide design and installation services and can guide you in the journey to increased usage of native species. We fully support the efforts of Sustainable Fairfield and the Pollinator Pathway initiatives.

### [Ganim's Garden Center and Florist](#)

320 King's Highway Cutoff (203) 333-5662

For over eighty years, Ganim's Garden Center and Florist has been serving the needs of the greater Fairfield area. With the knowledge, staff and products to satisfy all your landscape and garden needs, Ganim's is truly is the area's original friendly local garden center. Ask us about our selection of native cultivars and pollinator friendly plants and how you can incorporate them into your garden plans. Open seven days a week, come on by and see what's blooming.

### [Oliver Nurseries & Design Associates](#)

1159 Bronson Road (203) 259-5609

Oliver Nurseries has been taking a hard stand against invasive plants, by not selling Japanese Barberry, Burning Bush, Callery (Bradford) Pear, Norway Maple, or any of their cultivars for over two decades! While being known for our hand-picked specimen material, we have always had one of the strongest selections around of native trees, shrubs, and wildflowers. Our employees are passionate about natives and pollinators as well and love to share that passion with our customers, including many like-minded non-profits in the area.

### [Outdoor Design and Living](#)

1301 Bronson Road (203) 259-9630

Outdoor Design and Living creates functional and beautiful outdoor spaces that our friends and families will love to live in, enabling them to connect with their world in more deep and meaningful ways.

### [Native LLC](#)

1899 Bronson Road (203) 658-7475

NATIVE's mission is to provide a wide diversity of healthy, superior quality, regionally native plants to support the national movement of expanding ecologically critical native plant habitats to support our wildlife, while fostering an appreciation for the beauty of native plants. We are pleased to support Sustainable Fairfield and the Pollinator Pathway programs. Pick up a NATIVE plant today and join the community promoting a return to our historic forest ecosystems.
