

IEEE eLearning Library

The premier collection of elearning courses

Expand your resources for remote learners with the IEEE elearning Library

The IEEE eLearning Library offers high-quality, peer-reviewed online courses in relevant topics. The library delivers hundreds of course hours in core and emerging technologies, providing professionals, faculty, and students across academic institutions, corporations, and government agencies a better way to learn. Researchers can use the IEEE eLearning Library to easily stay abreast of the latest developments in related technologies, creating greater synergy with other product and R&D teams and enabling your team to take advantage of greater market opportunities.

IEEE eLearning Library Course Topics

IEEE eLearning courses are available in a wide range of topics to choose from:

- Power and Energy
- Automotive
- Telecommunications
- Cyber Security
- Internet of Things (IoT)
- Artificial Intelligence
- Cloud and Edge Computing
- Blockchain
- Photonics
- IEEE Standards
- Engineering Leadership Skills and Career Development
- And more

Benefits of IEEE eLearning Library

Advance Your Career

Learners who pass the course assessments through the new LMS, the IEEE Learning Network, can earn CEUs and PDHs.

Self-paced & Flexible

Online learning modules ranging from one to three hours in length.

High-Quality Education

Courses are developed and peer-reviewed by leading experts in the field, bringing you high-quality content only IEEE can provide.

Interactive Content

With an easy-to-use player/viewer, audio and video files, diagrams, animations, and automatic place marking.

Convenient Online Learning

Enjoy the flexibility of online access to the world's highest quality, peer-reviewed technical learning content in engineering and technology, delivered in the way that works best for your organization.
