August 7, 2026

Hi Pastor PRIDE Families,

We have an update to share!

Thanks to the continued growth of our Pastor PRIDE family, our student enrollment has continued to increase. We are incredibly grateful for the trust you've placed in our school, and we're excited to welcome so many new students and families to our community!

I have been working closely with the district to explore adding an additional (5th/6th grade classroom) to help keep class sizes balanced and ensure every student has the best possible learning environment. We're pleased to share that approval has been granted to move forward with this addition.

Because staffing a new classroom involves a formal hiring process, this change will take a little time to fully put in place. In the meantime, additional staff support has already been added to the classroom to help maintain a strong learning environment for all students until the new classroom is fully staffed.

Once we are able to confirm appropriate staff support, some students may receive an updated classroom assignment. If your child's placement changes, we will communicate that information directly to you. We know transitions can sometimes bring questions, but please know that every decision is being made thoughtfully with our students' success at the center.

We will continue to keep you updated as we finalize these adjustments and appreciate your patience and flexibility during this exciting time of growth.

Thank you for being a part of the Pastor PRIDE family. We are looking forward to an incredible school year together!

Sincerely,

Ashley Grant
