

Sports Day

April 11th was our school Sports Day. The sky was cloudy. I like Sports Day because there were no lessons that day. We went to Tin Shui Wai Sports Ground at nine o'clock in the morning. I met my classmates and greeted them.

After the opening ceremony, the first race started. There were many events like the long jump and running races. Some students cheered for their friends, and others watched the races excitedly.

I joined the parent-child relay race with my dad. I felt very nervous before the race began. When the air horn blew, I started running. I passed the relay stick to my dad, but he fell on the track for a few seconds. I was shocked! However, my dad didn't give up. He got up quickly and ran as fast as he could. In the end, we won the second prize in the race. We were so happy.

It was a fun and enjoyable day.
