A. Called meeting to Order at 6:07pm

B. Concerns/topics that were discussed: Questions about the budget were the main focus.

-There were questions over how many teachers are retiring and what/if any way could we utilize that as a tool to save money within the operational budget. Roughly 4-5 years from now MASCO could see a large drop in the highest paid teachers retiring; 5-7 years possibly an even bigger drop.

-Additional concerns regarding enrollment in the elementary schools; enrollment seems to be up so questions arose as to what would happen when those kids get to MASCO.

-How will losing staff affect the class sizes for the current elementary school kids?

-Discussion over setting up a meeting with state reps to speak about state funding and the distribution of state money.

-Special Ed parents in the group offered information about SEPAC and connecting schools like Landmark to MASCO for additional training for OOD placement specialists.

G. Adjourned at 6:57pm.
