Subject: **GroupWise to Google Migration Update 1**

Have you noticed when you login to your @hartsdistrict.org Google Mail account, there are now messages in your mailbox?

Items in your live GroupWise mailbox, up to January 31, 2014, have been copied to your Google account. This includes email messages, calendar items, and tasks. Your signature should have copied over as well. For those that use the GroupWise Archive feature, we will be copying those items in the coming weeks.

If you haven't already done so, please login to your District Google Account to make sure you're able to. Remember, on **June 14th, 2014**, email delivery to @hartsdistrict.org email addresses will no longer deliver to the GroupWise system and you will have to use Google Mail to send and receive emails.

How do I login to my Google account? <http://goo.gl/G74ggd>

We have setup a support website <http://google.hartsdistrict.org> to help you get familiar and even master some of the key features of Google Apps for Education (GAFE). Please take time before June 14th, to get acquainted and ask your questions in the [FAQ section](#)!
