Education

2022 | Software Development Bootcamp in JavaScript | Northcoders

13-week full-time program focused on full-stack JavaScript development with React, JavaScript, Node.js, and modern development practices.

2021 | Self-Led Web Development Framework | Full Stack JavaScript | The Odin Project

A full stack online curriculum that teaches you how to create beautiful responsive websites from scratch using HTML, CSS and JavaScript.

BA in Creative Writing, Graduation Year 2016

University of Roehampton, London 2:1

11 GCSE's and 3 A Levels, 2003 - 2010

St Philip Howard Catholic High School and Sixth Form

Projects

Movie Finder - [Code](#) - [Live](#)

A responsive full-stack web app that uses Angular 20 on the frontend and Node.js on the backend. The app lets users browse, search, and view details about movies using the Movie Database API. Frontend is hosted on Netlify and the backend is hosted on Render.

Built with Angular, TypeScript, Angular Material, HTML, CSS, and RxJS.

Learn Greek Application - [Code](#)

A responsive full-stack web app that uses Angular 20 on the frontend and Node.js on the backend. The app lets users learn the Greek alphabet and then test themselves on it. They can also post their score to a leaderboard.

Built with Angular, TypeScript, Node.js, Express, HTML, CSS and RxJS.

Portfolio Site - [Code](#) - [Live](#)

My Portfolio website was built using TypeScript, Angular and ngx-bootstrap then hosted on Netlify.
