Breaktime Policy

Aims

To ensure that all students are supervised and monitored during school break times in areas inside and outside of the school buildings.

Policy Statement

- Each day both Key Stage 1 and 2 playgrounds and basemen are supervised by a duty team.
- Each member of the team is allocated an area which he/she actively monitors. The duty tem are required to guide students as to what is expected in terms of a high standard of behaviour and should intervene in circumstances where it is prudent to do so.
- Five minutes before the end of break, the whistle is blown and the students line up in their classes in silence. Some members of the duty team will now move to locations on the stairs and corridors to ensure orderly conduct during the time when the students enter the school, (Key Stage2). The students are instructed to be silent, before being allowed to enter the school in a single file in an orderly manner.
