What action do I want the reader to take -

By the end of the post I want the reader to click my CTA and get the course

Which of the 4 key emotions do they need to feel to click the CTA -

The most important emotion for them to feel is that it's big, second of all will be new, third will be safe and the least important will be easy

Dream State

- Being able to make lots of money through their phone
- Quitting their 9-5
- They want to become a profitable trader
- Living a luxurious lifestyle and having an abundance

Pain state

- They're VERY scared of losing all of their money
- They don't want to work a 9-5
- A lot of gurus are just scammers and their courses don't work
- Being broke and not having money, living paycheck to paycheck

Mechanism -

- Copy paste trading
- \$125 → \$75 a month
- Real time alerts that they can immediately copy and paste after being sent to them
- Chart markups and thorough descriptions behind trading decisions
- Expert guidance, access to experts who manage over \$1.6m in proprietary funding
- Learn trade journaling and how to identify strengths and weaknesses

SL - Making £10k p/m takes years of grinding right? WRONG!

Sub text: Here's the trading strategy that'll create millionaires which even traders like x and x don't know...

Let's start from the beginning.

It's 2 pm on an ordinary Tuesday and I'm studying the markets in my apartment in Miami and I'm about to finish this session.

But what happens next would change the way me and you trade forex, FOREVER...

One of my employees, Levi, who manages over \$1.6m in proprietary funds called me.

"IDRIS GET TO THE OFFICE RIGHT NOW!"

20 minutes later I was in the office and he was showing me a new strategy that he'd tested around 370 times for the 3 months.

I had to get him to slap me in the face because I thought I was dreaming.

After all of his trades, he had an 87.8% win rate!

Not only that but it was as simple as copy and paste (literally)

He'd send me the trade, I'd place it and we'd watch the money roll in.

Every.Single.Time.

And here's the best part...

Levi and I are the only people that know this.

Not even traders like x and y know this strategy...(Yet)

Now I know what you may be thinking.

"This is cool but how does it benefit me?"

I've put together a discord channel where we send out the exact trade to make and when.

All you have to do is copy and paste.

That alone is worth at least \$500.

But on top of that we'll show you -

1. The chart markups which will allow you to say fuck you to your boss and quit your 9-5
2. Access to experts who've managed \$1.6m in propierty funds (That's worth at least \$300)
3. And how to identify strengths and weaknesses

In total, this course should be priced at at least \$1000, and normally it would be priced at \$125.

[But for the next 50 people, it'll be \\$75](#)

After that, the course won't be available because I want to keep this strategy on the low.

If you're serious about trading forex then [this program is for you...](#)
