Nuwaves // Future - Full Stack Developer

Compensation: $40/hour	Location: Remote	Position: Part-time

About:
Nuwaves // Future is an arts education nonprofit. We steward the #artbots network, the largest arts education resource on social media. Artbots reach 50M+ people every month with curated art content. Artbots is powered by BotFrens. Learn more at https://future.nuwaves.xyz

Description:
We are seeking a talented and motivated Full Stack Developer to join the BotFrens team. The ideal candidate will work on both front-end and back-end development, ensuring seamless integration between user interfaces and server-side systems. This role involves designing scalable software solutions, optimizing application performance, and collaborating with the team to deliver high-quality products.

Responsibilities:
- Design, develop, and maintain full-stack web applications
- Write clean, efficient, and well-documented code
- Collaborate with cross-functional teams to define and implement new features
- Troubleshoot and debug applications
- Optimize applications for performance and scalability

Qualifications:
- Required: React experience
- Nice to have: Python, Rails, Docker, or AWS experience
- Proficiency in front-end technologies and frameworks
- Knowledge of database systems (SQL and NoSQL)
- Problem-solving attitude and attention to detail
- Excellent communication and teamwork skills

Benefits:
- $40/hour up to 10 hours/week.
- Flexible work schedule.
- Opportunity to work in a dynamic and mission-driven organization.
- Professional development opportunities.

Nuwaves // Future is an equal opportunity employer and is committed to creating an inclusive environment for all employees. We encourage applications from individuals of all backgrounds, experiences, and perspectives.
