

8th grade Summer Work 2025

The goal:

To finish all of the vocabulary, writing and reading activities in the workbook that you haven't done throughout the year.

The reasoning:

It is important to practise language consecutively (without breaks) in order to best retain (keep) knowledge and skills over time.

What should you do?

Go over each page of the workbook. If you have done it, great!

If you haven't, check what it practises.

If it's grammar that we learned, do it. If it's a grammar topic we didn't study in class, skip (לפסוח/לדלג) it.

If it's vocabulary, reading comprehension (AKA "unseens") or writing tasks, complete them.

What will actually be checked next year?

Unit 1: Workbook pages: 25-33

Unit 2: Workbook pages: 55-63

Unit 3: Workbook pages: 89-97

Unit 4: Workbook pages: 118-125

Unit 5: Workbook pages: 151-152D, 153-159

Unit 6: Workbook pages: 181-182D, 183-189

* Most of these pages were done throughout the year as classwork, homework or preparation for exams. However, units 5 and 6 are new material. That said, all units must be completed by the beginning of the new school year.

Bring your completed workbooks with your names written in pen on the cover to the first English lesson of the school year of 2023/4.

Practice English and enjoy your summer! 😎
