

Shift Stuck/Front is a term coined by u/kisabakao, or ang3lsat1as. This document is for informational purposes and usage examples.

Shift Stuck/Front are 2 different things, but are similar in the shifting way.

Someone who is Shift Stuck has phantom limbs and similar non-behavioral shifts.

Someone who is Shift Fronting, as mentioned in the post by u/kisabakao, is similar to being stuck fronting in a DID or similar system, basically meaning behavioral shifts.

Someone can be both at one time, but can be less potent than the other. It can/may fluctuate in situations or factors.

To be sure you are shift stuck/fronted, it would be like you have always felt it, or have felt it months, nonstop, could be categorized as Shift Stuck/Fronted.

Examples for different usages:

"A wolf is my Shift Sticker."

"I am Shift Stuck."

"I have been Shift Stuck for a while."

This would be for the Shift Stuck terms.

"I am a bird, I got Shift Fronted."

"I have a bird as a Shift Fronter."

This would be for Shift Front terms.

"I am a demon, I am Shift Stuck/Fronted."

"I have a demon that I am Shift Stuck/Fronted to."

This would be for Shift Stuck/Fronted.
