

INTERNATIONAL FRIENDS SCHOOL —early childhood— 早教中心

你好, Hola, Hello

Qianqian Zhang

My name is Zhang Wenqian. On campus, both big and little friends like to call me "Qianqian laoshi," which makes me feel very close to them. I completed my Bachelor's degree in Accounting and Business Administration in Shanghai and worked for several years in the international settlements compliance and risk control department of both Chinese and foreign banks. I am a certified Early Childhood Education educator in Washington State and have been working with children aged 0 to 10 in schools in Bellevue since 2019.

I have a profound affection for children, and in them, I sense the remarkable handiwork of the divine. Every child is unique and invaluable, and our interactions consistently bring me immense joy. I love being with children and I enjoy watching them develop self-help skills, learn, and grow.

I reside in Bellevue with my family and like to spend my leisure time playing the piano and traveling. This is my third school year at IFS and I am looking forward to a great year with all of you!
