

TEXTIFY PDF

PRIVACY POLICY

Last updated: September 29, 2026

Introduction

This Privacy Policy explains how Textify PDF ("the App"), developed by Prince Boateng, handles information when you use the App.

Textify PDF is designed to help users create, edit, convert, and manage documents, including PDFs and office documents. We respect your privacy and aim to keep your documents and personal information secure.

1. Information We Collect

Textify PDF does not collect, sell, or share personal information.

You do not need to create an account to use the App. We do not require you to provide your name, address, phone number, or other personal information to use the App.

2. Documents and Files

Documents, PDFs, images, Word files, Excel files, PowerPoint files, and other files you open or create with Textify PDF are processed for the features you request.

The App is designed to keep your files on your device unless you explicitly choose to share, export, or send a file using an iOS system feature or another service you select.

We do not claim ownership of your documents or their contents.

3. Analytics and Tracking

Textify PDF does not use third-party advertising trackers or analytics services to build profiles about you.

We do not sell or share your personal information with advertisers.

4. In-App Purchases

If Textify PDF offers optional subscriptions or in-app purchases, payments are processed through Apple's App Store payment system.

Textify PDF does not receive or store your payment card number or other payment credentials. Apple handles payment processing in accordance with Apple's applicable terms and privacy policies.

5. Third-Party Services

The App may use Apple system features such as the Files app, document picker, share sheet, and other iOS services when you choose to use them.

These Apple services are governed by Apple's own terms and privacy policies.

6. Data Security

Because Textify PDF is designed to process documents on your device where applicable, your files are not intentionally transmitted to us for storage.

However, no electronic system can be guaranteed to be completely secure. You should keep backups of important documents.

7. Children's Privacy

Textify PDF does not knowingly collect personal information from children.

Because the App does not require an account or intentionally collect personal information, we do not knowingly maintain personal profiles of children.

8. Changes to This Privacy Policy

We may update this Privacy Policy if the App's features, services, or privacy practices change.

When we make changes, we will update the "Last updated" date at the top of this Privacy Policy. You should review this page periodically for any updates.

9. Contact Us
