Characters:

I draw ferals, anthros, humanoids and humans!

I can draw any type of animal, such as mammals, reptiles, dinosaurs, mythical beasts etc. Complex character designs add a +5€ to the price. I will let you know whether or not I consider something complex.

I will not draw characters from popular media such as MLP, FNAF, Beastars etc.

Fan OCs from popular media are ok, but I will only draw them in my own specific style. So please take into account that your Sonic OC might turn out looking like some kind of eldritch hedgehog person.

Please give me a visual reference of your character. I would prefer it to not be shaded and have clear lining and coloring.

For pet portraits, I will require clear pictures, I prefer multiple for reference. Please let me know what kind of pose or expression you want for your character, or at least give me a description of their personality.

More about edits:

You can request edits to your drawing until it is complete.

I consider minor edits small things such as adding/removing small features (accessories, markings or fur tufts) or changing the color scheme of the drawing.

I consider major edits things such as pose changes, major features, background changes or lighting/shading changes.
