

Name \_\_\_\_\_

**LT 6.3 Polygons**

What are three characteristics of a polygon?

1. \_\_\_\_\_

2. \_\_\_\_\_

3. \_\_\_\_\_

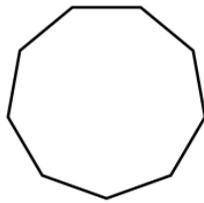

Write the name for each polygon based on the number of sides. Then draw it as a regular AND irregular polygon. Use a straight edge.

| Name | Regular | Irregular |
|------|---------|-----------|
| 3    |         |           |
| 4    |         |           |
| 5    |         |           |
| 6    |         |           |
