Memo from the principal

Once again, mother nature had other plans. Going forward, we will make every effort to have a remote day rather than a traditional snow day, in the event we close school due to dangerous weather or road conditions. We will do our best to make sure our families are aware of that decision if we get to that point. We were hoping to have a remote day this week but weren't able to pull all the pieces together in time. At last evening's town meeting the school budget was approved. We thank you for your continued support on many levels, not the least of which is your financial support. The staff participated in some focused professional development on Thursday. We engaged in a presentation by OUT Maine, became Narcan certified and were trained through a Stop The Bleed workshop presented by local medical professionals. Concurrently, our math teachers all attended a half day of follow up training on iReady Math, our recently adopted math curriculum. SBS staff attended various workshops and presentations at Jefferson Village School on Friday. All in all, we learned a great deal and solidified our mutual goal of serving our communities to the best of our abilities. Staff also had a wonderful time celebrating with a baby shower for our own Mrs. Wright!

- Mr. Hamm

"Find out who you are and do it on purpose." Dolly Parton - *Singer/Songwriter*

Staff participated in Stop The Bleed training this week. Thank you to Dr. Hasan and her colleagues for this incredibly valuable training.

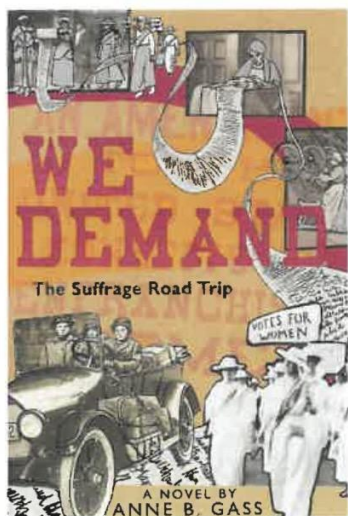

South Bristol Rutherford Library celebrates Women's History Month with a free presentation by Maine author Anne B. Gass

Anne B. Gass developed her passion for women's rights history while writing a book about her amazing activist great-grandmother. The book, *Voting Down the Rose: Florence Brooks Whitehouse and Maine's Fight for Woman Suffrage* was published in 2014. In 2015 the research for her next book led Anne on a cross-country journey, retracing the route intrepid suffrage activists had taken a century before to demand voting rights for women from Congress and the President. The result was *We Demand: The Suffrage Road Trip*, a historical novel, published in 2021.

Anne draws strength from all the women who fought so long and hard for equality, and loves finding and telling the stories of courageous women forgotten by history. She speaks frequently on her research in hopes of inspiring others to continue efforts to win equality for women.

Join author and independent historian Anne B. Gass at the Rutherford Library as she shares remarks and historic slides about her historical novel *We Demand: The Suffrage Road Trip*, based on a true story. The story starts in 1915 when four women leave San Francisco for Washington DC on a desperate and dangerous mission to demand an amendment to the US Constitution enfranchising women. Their story unfolds through the eyes of unsung heroes Ingeborg Kindstedt and Maria Kindberg, middle-aged Swedish immigrants who own the car, do all the driving, and fix what goes wrong. They lose their way in a trackless Nevada desert and get stuck in the mud in Kansas, among many other adventures. Can they arrive in DC at the appointed day and time?

You can find out how they fared at Anne's presentation on Friday, March 24th at 2 pm at the Rutherford Library which is located at 2000 State Rte. 129, in South Bristol., Maine. Library hours are Wednesday and Thursday from 12-6, and Friday and Saturday from 9-1. For more information call the library at 644-1882 or check it's FaceBook page at [RutherfordLibraryMaine](#).
