MHS Food Services/Meals

There will be no cash transactions at point of sale. There are two options to fund meal accounts at MHS:

- MySchoolBucks.com
- Direct deposit envelopes that will be left with teachers in classrooms. Students can give to teachers or food service upon delivery.

Ordering Meals:

Each day, students will be reminded to fill out a Google Form (posted in an accessible place on the MRPS website) where they can order breakfast/lunch for the following day. (this includes Friday for Monday) This can also be done at home should a student be absent. Please see form here.

- If a student is not present in school on any day, the student can fill out the form from home and/or there will be a few extra meals during delivery times.
- Tuesday, September 8th and Wednesday, September 9th will be flexible days where food service will offer meals for students to pick up after class.
- Starting Wednesday, September 9th, teachers will provide students the opportunity, in class, to order food for the following day (Thursday, September 10th-green day)

Delivery and Payment:

Food services will use the last 30 minutes of each class period/cohort to deliver meals for the following day.

- Food services will deliver to classrooms and solicit payment by students at the point of pick up. Each student should have their pin number ready for purchase.
