**Reflection:** Explain why you chose this image and how it represents your year.

I feel that this image of achievement represents my Sophomore Year very well because I have accomplished many things that I am extremely proud of. For example, I completed Advanced Math with a straight 4 in Proficiencies and Transferable Skills and received the semester award for the class along with a Science Inquiry Award for the semester. I also was voted to be on All-Mountain League Second Team and received the Pete Hart award for the second year in a row. Most of all, I am extremely proud of my achievements in all of my classes this semester. I have taken on a heavy workload this semester, along with the other clubs and leadership roles that I am involved with. Even with all of my extracurricular commitments, I have been able to maintain an extended score in all of my classes. Most recently, I was chosen as the Global Citizenship Department Student of the Month for April. Overall, I feel that I have accomplished many things this year and I am excited to continue to achieve my goals.
