

I'm sending this to Aidan who is a business consultant, through email with the copy included at the bottom.

The prospect is small to medium business owners who struggle with the objection of time & money limitations.

In order to help them take the next step forward I must help them understand that they are holding themselves back with this common misconception.

Hey Aidan,

Here's a closing statement to add to your website and drive people to book a consultation. I'm here for any questions or feedback.

“I can't afford it & I don't have time”.

You feel stuck in survival mode and it feels like it will never end.

Clients are demanding more and before you know it, you start competing on price.

Then it's a battle of keeping your employees happy while trying to pay yourself minimum wage.

You've heard that 40% of businesses fail within the first three years & 65.8% within 10 years.

Entrepreneurship takes passion, determination & most strategic planning.

You started this journey for a reason, to help others by providing a service.

I'm here to show you the light at the end of the tunnel & keep you on the fast track to success.

You need someone in your corner who has the experience and knowledge to help you *avoid making costly mistakes*.
