Please describe a teacher that had a lasting impression on you. Mr. Lloyd, my elementary school science teacher, always helped encourage students to do their best. In addition, he would hold everyone accountable if they submitted work that was not their best. He also had a terrific sense of humor with students and made learning fun!

Have you ever broken a bone or had an interesting injury (if yes, please describe)? I broke my ankle in my driveway growing up after shooting a layup (landed on a brick) - the basket did go in though.

What do you love about Hen Hud? I love that we are such a wonderful community that supports one another and can really get to know each other. I look forward to coming to work each day to greet students, staff and families and figuring out how to keep making our schools the best they can be.
