

Technical Services and Scientific Equipments

ANIMAL FACILITY **“ex-Farmacologia” – L.go Meneghetti 2**

The Animal Facility of the Department of Pharmaceutical and Pharmacological Sciences located in L.go Meneghetti 2 (“ex-Farmacologia”) is a conventional facility housing mice and rats. Breeding is authorized for both species. Approximately 20 experimental studies are currently ongoing, all being authorized by the Italian Ministry of Health, in accordance with the EU regulation (Directive 2010/63/EU, Legislative Decree 26/2014).

The animal facility has instrumentations and expertise for supporting behavioral studies and is equipped with a compact gas anesthesia system.

We are strictly following the 3R Principle (Replacement, Reduction, Refinement) during the experiments involving animals used for scientific purposes.

The staff of the animal facility is at your disposal for information and training.
