

INTELLIGENT DOCUMENT PROCESSING

Automated data extraction from invoices, contracts, and forms using AI

What It Does

Automatically reads, extracts, and validates information from unstructured documents. Processes documents 10x faster than manual review with higher accuracy, eliminating data entry bottlenecks and enabling straight-through processing.

Business Value

- 90% reduction in processing time (3 days → 4 hours)
- 99.2% accuracy vs. 94% manual accuracy
- \$1.2M annual labor cost savings
- Processes 50,000 documents monthly vs. 5,000 manual capacity
- Enables 24/7 processing with no staffing increase

Key Capabilities

Document Classification

Automatically categorizes 50+ document types with 99% accuracy

Data Extraction

Pulls specific fields from any layout or format

Validation

Cross-checks extracted data against business rules

Integration

Pushes data directly to ERP and CRM systems

Proven Results

Processing 50,000 documents monthly since Q2 2025 with 99.2% accuracy. Eliminated 15 FTE manual data entry roles while improving quality and speed. User satisfaction: 4.7/5.0 from operations team.
