2 - Online Debate

Homepage - [Our Tournament homepage will be your friend](#). We will be uploading all the live documents, updates, and NSDA Campus guidelines here in the next two weeks.

Platform - Our tournament will take place on [NSDA Campus](#). Please refer to the Campus Guide on our tournament homepage. *Campus* has already proven to be one of the most seamless and excellent online platforms. This requires all coaches, students, and judges to have a Tabroom account linked to their entry and registration. We will provide instructions for how to use NSDA Campus next week. The one event that will not be hosted on NSDA Campus is Duo. We will provide more information shortly on how Duo will work online. We will have detailed instructions for every event to come. Our judges and coaches rooms may very well Zoom depending on numbers.

Safety - We are confident in our ability to provide a safe online debate environment for our students. The NSDA Campus software limits access to calls for only authorized Tabroom users in our tournament, meaning that we can guarantee the only people with access to a specific competition room at a specific time are the assigned participants, the assigned judge, and our administrative team, which will be roaming throughout rooms to ensure that everyone is safe and the competition is running smoothly. Observers are not permitted. We will not be recording any rounds through NSDA Campus, and the independent recording of rounds by judges or students is strictly prohibited. For future open tournaments we will be opening up public viewing options for final rounds. On this note, even whilst remote we require a school sanctioned adult to be on call the entire weekend if we need to contact them for tournament related reasons be them judges, rules, challenges, etc.

Technology: Our tab staff has worked at several digital summer institutes and online tournaments already this year and are confident in our ability to run an effective tournament online. More tech info to come.
