

# EDUARDO RAMOS NOVOA

Senior Software Developer & Project Specialist

Galicia, Spain | +34 622 611 676 | eduramosnova@gmail.com

## PROFESSIONAL SUMMARY

---

Software Developer and Project Specialist with 4+ years of experience designing and delivering **software projects for clients from scratch** — from requirements gathering through to deployment. Specialised in C#.NET, WinForms and SQL, currently working in a logistics environment where the role combines full-stack development with direct client ownership: translating business needs into working software and leading agile delivery cycles.

Comfortable owning an entire project lifecycle — **client-facing communication, solution design, API integration and release management**. C2-level English (certified), strong communicator, and equally at ease in technical and business conversations.

## PROFESSIONAL EXPERIENCE

---

**Tacisa Transitaria S.L.** — Project Specialist & Senior Developer 2023 – Present

- ▶ Led end-to-end delivery of client-facing projects: gathering requirements directly with clients, defining technical solutions and owning development through to deployment
- ▶ Built and shipped multiple software solutions from scratch for clients in the logistics and transport sector, covering the full stack from database design to WinForms UI
- ▶ Designed and integrated REST APIs and Web Services connecting client systems with external platforms and third-party providers
- ▶ Extended a client-facing ASP.NET project management web platform, delivering new features aligned with client-requested business workflows
- ▶ Designed and built an internal release management tool from scratch, standardising deployments and reducing production errors across client environments
- ▶ Implemented Git workflows across development teams, improving version control practices and release reliability
- ▶ Led sprint planning and agile development cycles, coordinating technical and business stakeholders throughout delivery
- ▶ Diagnosed and resolved production incidents in client-facing systems, improving stability and platform performance

**Lidera Soluciones** — .NET Developer 2022 – 2023

- ▶ Delivered new features and maintained existing functionality for Spiga+, an automotive sector software product
- ▶ Designed and implemented UI windows and reports using C# (.NET Framework) and WinForms, improving usability for end users
- ▶ Used SoapUI for API testing and integration verification, ensuring reliability of service connections

**Nunegal Consulting** — .NET Developer 2021 – 2022

- ▶ Developed new features for the Inditex POS system, adapting the platform for multiple international markets
- ▶ Worked closely with cross-functional teams to identify, reproduce and resolve defects in production
- ▶ **Tech stack:** C#, .NET Framework, SQL, XML, Git, Jira, Python, SonarQube

**Altia** — Java Developer (Internship) 2019

- ▶ Participated in development and maintenance of two concurrent web projects using Java (Spring), SQL and JDBC
- ▶ Built web application views and automated document generation pipelines using JasperReports and React/JavaScript

## TECHNICAL SKILLS

---

**Backend & Desktop:** C# / .NET Framework / WinForms · Java / Spring Framework · ASP.NET · REST APIs / Web Services

**Frontend:** React · JavaScript · HTML & CSS

**Databases:** SQL (SQL Server, relational design, query optimisation)

**Tools:** Git · Jira · SoapUI · SonarQube

**Practices:** Agile / Scrum · Sprint planning · Release management · Client-facing requirements gathering

## EDUCATION

---

**University of Santiago de Compostela** — Bachelor's Degree in Computer Engineering 2020

**Druid Hills High School, Atlanta** — Academic Exchange Programme (Scholarship) 2013

## CERTIFICATIONS & COURSES

---

- ▶ English C2 Certificate — 2020
- ▶ React – The Complete Guide (Udemy) — 2022
- ▶ JavaFX Course (USC) — 2019

## ADDITIONAL

---

Hobbies & personal projects span game development, music production, video editing and creative writing — reflecting a hands-on, creative approach to problem-solving that carries into professional work.
