WHY DID JAY WEINBERG GET FIRED FROM SLIPKNOT??
..BECAUSE HE DIDN'T LISTEN TO THE ALBUM OF THE WEEK!!!

Sam's Album Of The Week:

Converge - Jane Doe

"I picked this album this week because the sound guy at the Vended show kept playing it between bands. I told him it was a great choice and he said he did sound for Converge once at Motorco! Insane. Anyway, this is one of those albums that turned everything I thought I knew about music on its head the first time I listened to it. Mind-blowing, and a huge inspiration for me, it just opened up a lot of doors in my head. If the only song on the album was the opener Concubine, over and over, I would be perfectly okay with that."

Top tracks:

- Concubine
- Bitter and Then Some
- Heaven In Her Arms
