"Dan! I want your help to achieve 30 days sober within the next 3 months. I also want to build strong relationships that match my passions and values. I need a simple plan that isn't just 'I'll stop on Monday'." - you got it... keep reading 😊

Our 12-month journey together is about making life fun and meaningful. We aim to go beyond just getting by, aligning your work with your passions so people want to pay **YOU** for your skills.

In the next 90 days, we'll focus on creating a healthy lifestyle that feels good and is easy to keep up—so enjoyable that you won't miss your old habits. We want to create a strong routine of daily positive habits that will change the narrative in your head around what life you want and deserve.

We'll do this through three clear phases...

Phase 1 - Mastery:

We start by building your confidence so you feel like you're winning. This means closely examining your structure, routine, and self-perception.

Next, we dive into the Self Mastery Paradigm. Most people try to change who they are by looking for external solutions. Instead, we focus on changing from the inside out, committing to mastery from the core.

Finally, we'll tackle the Goal Setters Secrets. You'll learn to set long-term and short-term goals that align with the person you want to become. I'll teach you how to break them down into achievable daily actions.

Phase 2 - Resolution:

Your body is like hardware. Your mind is like software. Addictive behaviours are a software issue. The good news is, like your phone's software, your mind can be updated.

We'll use The Circuit Breaker system to reprogram your outdated belief systems and turn off autopilot. This will help you understand your habits and control your urges.

Then, with more self-awareness, you'll use the Emotional Mastery Mechanism to control your thoughts, emotions, and actions.

Phase 3 - Transformation:

Here we establish a reason to never hit the "*fuck it*" button again...

Together, we'll uncover and leverage your hidden strengths and talents.

We then connect you with your purpose. Knowing your "why" gives you the drive to keep going, even when things get tough.

Finally, we aim for peak performance. By honing your strengths and refining your routines, you'll operate at your best, achieving more without burning out.

By the end of the first 90 days, you'll celebrate 30 days sober. You'll make sure your work, relationships, and home match your values, finding happiness that goes beyond paying the bills.

On a scale from 0 to 10, how would you rate your overall experience in the program? Please explain your rating.

10 / 10

What would make that a 10? (if applicable)

For me, personally, joining this course has had a huge impact on me. It quite literally saved my life and marriage. It gave me understanding of what I was going through in a way that I could manage my emotions and heal myself from within, allowing me to really focus on the important things and what I wanted to do with my life going forward.

What did you like the most about the workshops, and why?

I liked how Dan explained things clearly and interspersed the worksheets with his own life experience. One of Dan's strengths is that he has been in the place his clients have been and never judged me or anyone in the group. Having been to a therapist before where I explained my situation and felt they didn't resonate with me. Being able to explain yourself to someone who knows exactly how you feel is invaluable. Learning the deeper levels of how the brain works and what addiction really is...a symptom, incredibly insightful.

Did you have any initial reservations about participating in a group program instead of one-on-one sessions? How has your perspective on group programs changed after this experience?

Yes I did, I felt very conscious of explaining my life to others I'd never met. Fear of judgement and shame was quite crippling at the time. After a few weeks in the programme and learning of other members issues really helped me to put my issues into perspective.

If you were speaking to someone considering this program but feeling uncertain, what would you tell them based on your own experience?

Just do it. You will get an understanding of the human brain that you never knew before. The amount of freedom you get is priceless. This is by far the best move I have ever made in my life. If you embrace change you will find that life gives you gifts that you never knew were possible. I've made so many bad decisions in my life. This isn't one. This is one that no one would ever regret. You have to be ready for it though. You need to want to change otherwise it will be a struggle. Ready to make the move? Then go for it. You have nothing to lose.

Who's it not for?

“What makes this better than X?” Not for you.

"AA/CA is the only thing that works," Not for you.

If you've never considered sobriety OR you have no intention to change, this probably isn't for you.

If you can't afford it, please don't join. It's also not for anyone who doesn't know or trust me.

OK... So How Does It Work?

When you join, we'll start with a free 90-minute 1-on-1 Breakthrough Coaching Session. We'll figure out where you are now, where you want to be in 3 months, and the quickest path to get you there.

You'll go through the content in small steps, follow the actions, and report back to me. I'll help you with any questions and make sure everything is on track.

If you ever feel confused or stuck, I'll be there to guide you on your next steps.

You'll be part of a private community with other salespeople on the same mission. There'll be daily discussions, idea sharing, celebrations, and support.

We host group coaching calls twice a week: **Tuesday at 6pm and Thursday at 6pm UK time.** These calls are 60-90 minutes long.

If you can't make it, don't worry. All calls are recorded and uploaded, so you can watch them later.

I recommend spending at least 4 hours a week on our training and doing the work. (We'll also teach you Time Management skills if needed.)

If you want personalised support, I offer 1:1 breakthrough sessions for our community members at a special rate of £150.

Inside, you'll learn:

- How to overcome social pressure permanently
- How to communicate your intentions with conviction
- My sober blueprints (sail past 100+ days with ease)
- How to effectively manage stress and overwhelm
- To reprogram the beliefs driving your substance use
- Identity Creation with our "Self Mastery Paradigm"
- World-class sales trainings rooted in hypnosis & NLP
- How to leverage your sales skills to build a business

**To be clear, this is not a 'recovery' program. If that's what you want, you'd be better off at an AA meeting...*

"But I feel uncomfortable in a group"

Yes, everyone feels the same way at first. But once they join, they quickly see that we are all fellow strugglers. There is something truly beautiful about growing and working together as a team.

When you step into our community, you'll find a supportive environment where everyone is on the same journey. We share struggles, celebrate wins, and support each other every step of the way.

Being part of a group helps you grow faster. You'll have accountability and a network of support that is priceless.

I'm here steering the ship, guiding you through the process, but the true magic happens when everyone comes together. We learn, grow, and succeed as one.

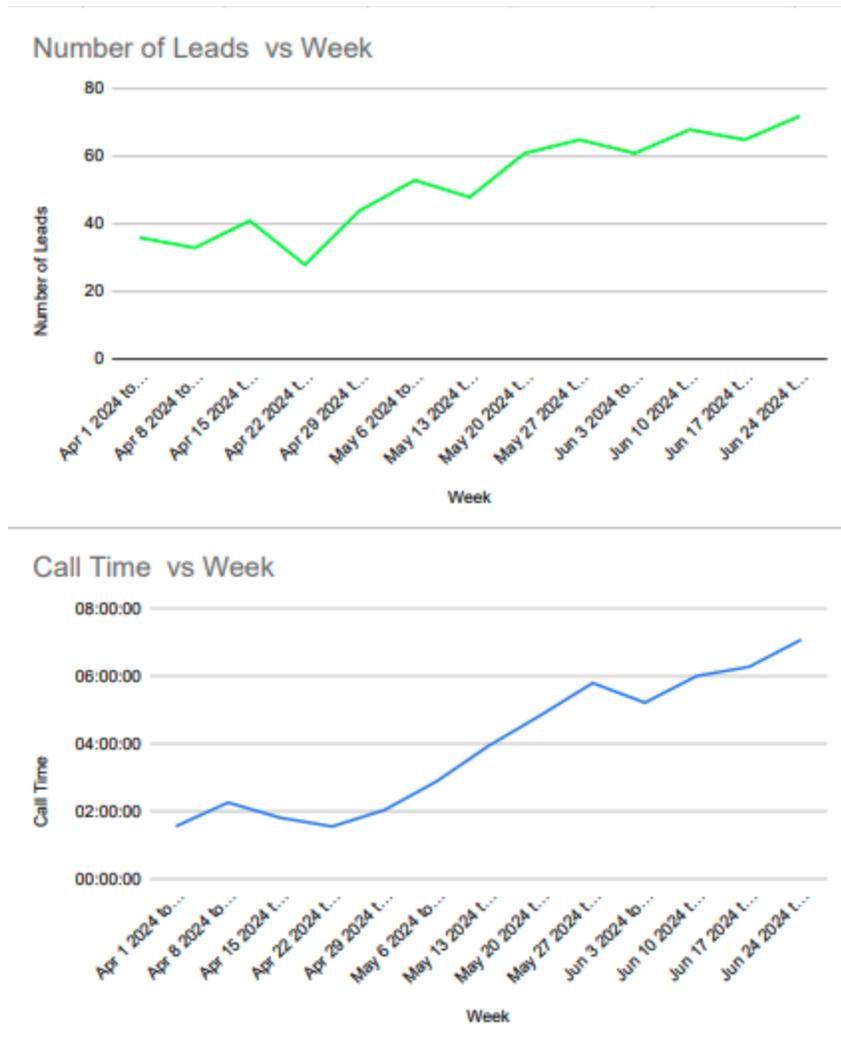

Embrace the discomfort, and you'll find a community that becomes like family.

“Will it work for me?”

Simple answer, yes. If you attend the calls and follow my recommendations. Take my client J (identity protected) as an example. He's a finance broker in London.

He joined on April 24th and has seen a 300% increase in his work performance since removing cocaine and implementing our Self-Mastery Method™.

Just look at the data from his employer below...

... 10 weeks, his transformation has been wild!!!

Is There A Guarantee?

There is. A good one. Because I believe in this system and in keeping my promises.

If we haven't managed to achieve 30 days sober within the first 90 days...

I will continue to work with you for free until we hit the 30 day mark.

So there is literally zero risk for you here. You will achieve 1 month sober. Pretty good deal...

The only conditions are that you're watching the content and implementing the action points.

In other words - You can't just do nothing, then come back in 7 years and tell me to help you... 😊

But come in, do the work... And if we don't hit that 30 days sober mark, I'm happy to troubleshoot or whatever else... until we do.

You fire the bullets, but I'll give you the gun... Deal?
