

IOTTT's webinar on Cognitive Rehabilitation- Adult Acquired Brain injuries

About the Speaker:

Asha K. Vas is a professor and an associate director in the school of occupational therapy at Texas Woman's University. Dr. Vas is a licensed occupational therapist and a cognitive neuroscientist. Her research includes integrating principles of cognitive neuroscience into functionally relevant cognitive training/rehabilitation programs for individuals with acquired brain injuries and related diagnoses.

About the Webinar

Learning Objectives

1. To describe cognitive domains in relation to everyday activities.
2. To discuss the general principles of acquired brain injury cognitive rehabilitation / training.
3. To present specific strategies of top-down training programs (e.g. Strategic Memory Advanced Reasoning Training, SMART).
4. To discuss application of the strategies to everyday activities.

Agenda

- 7-7.30 pm- Cognitive Domains, General principles of Cognitive rehabilitation
- 7.30-7.35 pm-Break
- 7.35-8.10 pm- Top-down training programs, Application of strategies
- 8.10- 8.30 pm- Q & A
