

Blind Sequencing

Applied to the Plant Life Cycle

Directions:

- Deal the cards facedown to each team member.
- You may look at your card(s) but do not allow anyone else to see your card(s).
- The team member seated clockwise next to the dealer should describe the phase of the plant life cycle on one of their cards. Others may ask questions. Place the card face down on the table when each team member has a mental image of the card (no peek).

LEARNING THE PLANT LIFE CYCLE

Strategy: BLIND SEQUENCING

Dan Mulligan, flexiblecreativity.com

- Then the next team member will describe the phase of the plant life cycle on their card. Place the card on the table.
- The team must sequence the cards without looking until all cards are down.
