

RoboSub Course Summer 2023

RoboSub at CBI connects teamwork, engineering, and technical skills into a unique challenge. Students will build and control remotely operated submersibles to complete various tasks. Experts from the robotics field will share their experience in industry and work alongside the students as they perfect their submersibles.

The course meets at Community Boating on July 17th, 19th, 24th, and 26th afternoons from 2:00pm to 5:00pm. Attendance is expected at all 4 sessions. Minimum age requirement is 14 years old with a Mercury Green rating. Knowledge of sailing maneuvers is expected, but no coding experience is required.

Program Details:

-**When:** Four sessions on **Mondays and Wednesdays:** 7/17, 7/19, 7/24, and 7/26 (Please only sign your child up if they can attend all four sessions)

-**Time:** 2:00 PM – 5:00 PM

-**Who:** Any Junior who is **14 years old and Mercury Green rated**. No computer programming experience required.

- **Where:** Community Boating Boathouse
