ITALY: DARK RED (Teresa Todaro/Annamaria Sgobba Primary School)

Ukraine: pink (Tetyana Dumanska)

ROMANIA, HARAU: BLACK

Health is so precious

Everything starts with it

An apple a day keeps the doctor away.

Let's eat more fruit and vegetables then

The first wealth is health,

Health is not valued till sickness comes,

Your happiness also counts to be healthy!

Eat healthy food!

And move! Run, jump, swim!

Try to keep doing this as often as you can

Indoors or outdoors, you must exercise

No matter what!!!

Good health is above wealth.

Healthy lifestyle life is your challenge

Every time say to yourself that you were made to win

Antioxidants found in most fruits and vegetables.

Lemon, tangerine and orange for vitamin C

These fruits protect you against the flu

Healthy you will become.

You shouldn't eat so many sweets

Live not to eat, but eat to live

Instead of junk food

Vitamins are important!

Invite them to your food

Never let them

Go and win!

Healthy eating means to love yourself

To be healthy you need to eat a bit of everything

If you eat healthy, you live healthy, if you live healthy, you will be happy
